ET ALS

"Rape: Cries from the Heartland" is the title of a video to be shown today from 10:30 a.m. to noon at a meeting of the Unwanted Sexual Behavior Task Force in Room 360 Oregon Hall.

Free Macintosh Orientation will be held today from 2 to 4 p.m. in Room 185 Oregon Hall. Basic operations for beginners will be covered. Call

346-1750 for more information.

The Incidental Fee Committee meets Wednesday morning at 10 in EMU Century Room A. Special requests from ACT and Amazon Co-op and internal business will be discussed.

Deadline for submitting Et als to the Emerald front desk, EMU Suite 300, is noon the

day before publication. Et als run the day of the event unless the event takes place before noon.

Notices of events with a donation or admission charge will not be accepted. Campus events and those scheduled nearest the publication date will be given priority. The Emerald reserves the right to edit notices for grammar and style.

REVIEW

Continued from Page 3

credibly enough, much like Guns and Roses has Axel Rose, L.A. Guns have Traci Guns. Boy, they are different aren't they?

No doubt the L.A. Guns will find heavy support among the hormone-influenced world of

leather-clad high school toughs. But if they want to remain true to their rock and roll spirit, as they claim, they need to realize that the glam-metal genre is not the place to be revolutionaries.

The talent displayed on songs like "I Found You" and "Crystal Eyes" could be put to better use

if the members of the band concentrated less on "making it," via the status quo, and more on carving out their own niche in the rock world.

RECORD RATINGS

Now you can afford to dream in color.

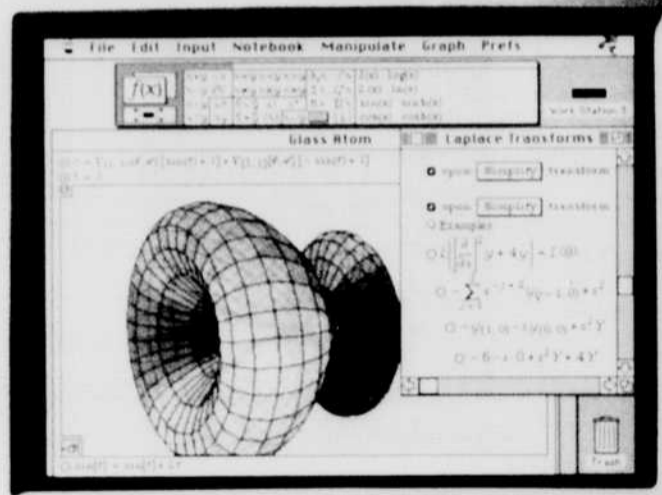

Apple introduces the Macintosh LC.

If you thought that finding a color Macintosh system you could afford was just a dream, then the new, affordable Macintosh LC is a dream come true.

The Macintosh LC is rich in color. Unlike many computers that can display only 16 colors at once, the Macintosh LC expands your palette to 256 colors. It also comes with a microphone and new sound input technology that lets you personalize your work by adding voice or other sounds.

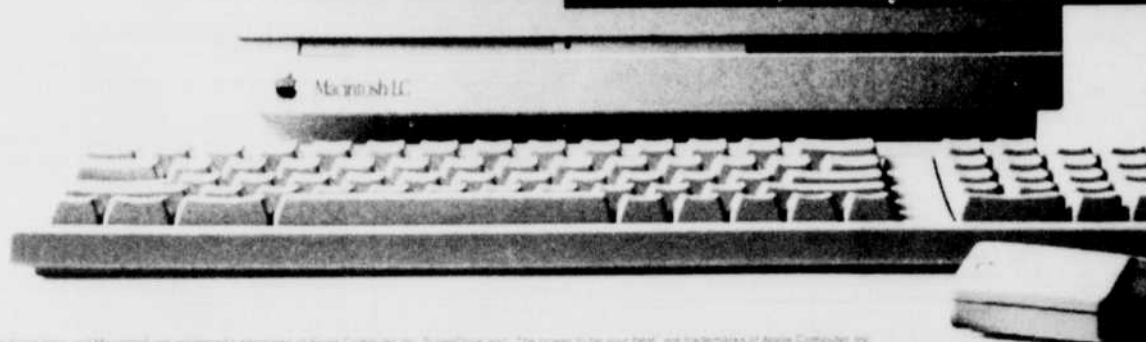

Like every Macintosh computer, the LC is easy to set up and easy to master. And it runs thousands of available applications that all work in the same, consistent way—so once you've learned one program, you're well on your way to learning them all. The Macintosh LC even lets you share information with someone who uses a different type of computer—thanks to the versatile Apple SuperDrive, which can read from and write to Macintosh, MS-DOS, OS/2, and Apple II floppy disks.

Take a look at the Macintosh LC and see what it gives you. Then pinch yourself. It's better than a dream—it's a Macintosh.

Special pricing for eligible U of O students, faculty and staff.
