ABOUT THE PROGRAM

Innovative Educational Development provides the Eugene area with a refreshing blend of courses not found in the regular U of O curriculum. We sponsor credit and non-credit classes, workshops and seminars taught by qualified students, community members and U of O faculty. We act as a testing ground for experimental course ideas, welcoming new ones that deal with current and/or controversial issues. Over the twenty years, many classes originating in this program have been incorporated into the regular university curriculum. As an ASUO (Associated Students of the U of O) program, it is managed entirely by students. All students, faculty and non-students community members are invited to participate in our program.
