

CLASS: **Philosophy 101**
TERM: Fall 1991
INSTRUCTOR: Lane Transit District

1) Is your reality the same as mine?
Offer proof.

2) "I think, therefore I am."
Do you cease to exist if you
stop thinking? How will you know?

3) How can you really choose
between free will and determinism?

4) The universe has no beginning
and no end. True or false? Why?

5) You can ride the bus...
anywhere. Anytime. All term long.
(just by showing your student I.D.)
Would you describe the service
as free, unlimited, or just a
figment of your imagination?

BONUS

6) "What goes around, comes around."
Use either the universe or the bus
to prove or disprove your answer.
