Register Early. Space is Limited.
346-4441

Cancellation must be 24 hours before class or no refund.
Sponsored by the Student Health Center, Office of Public Safety and the Lifestyle Planning Program.

ARTS

The Undertakers is one of six local bands performing at the Animal Jam in WOW Hall Thursday at 9 p.m. The concert is a benefit for Citizens for Animal Rights, a Eugene organization that fights to end animal abuse.

Bands join to fight animal abuse

By Ming Rodrigues
Emerald Contributor

Thursday night at the WOW Hall, you can tune in to some of Eugene's finest bands and contribute to a special cause as well.

Animal Jam, a benefit concert in support of animal rights, will showcase the talents of six local bands with sounds that vary from "psychedelic

garage" to the blues.

All proceeds go to Citizens for Animal Rights, a Eugene organization dedicated to ending animal abuse and exploitation.

CARE's activities include public education, picketing, letter-writing and supporting legislation that promotes animal welfare.

Environmental Awareness Workshops • Fall Term 1991

OREGON RIVERS — OCTOBER 25, 26, 27

Fee: \$150 plus \$30 travel • 2 credits (LSS 408/508)

This workshop will investigate the exciting riparian environments of Oregon's rivers. Field-labs on local rivers offer firsthand exposure to help students gain an understanding of the problems, relationships, concepts and opportunities for river activities. Studies of plants, animals, history and river geology will broaden the students' awareness of Oregon's waterways.

SOUTH COAST — NOVEMBER 8, 9, 10

Fee: \$150 plus \$20 travel fee; maximum of 15 students • 2 credits (LSS 408/508)

Study at the edge of the continent to gain knowledge about Oregon's spectacular and varied coastline. Activities along the estuaries, dunes and tidepools will provide insight into the relationships of the plants, animals, history and geology to enhance the student's understanding and appreciation of how it all fits together.

OREGON FORESTS — NOVEMBER 22, 23, 24

Fee: \$150 plus \$20 travel • 2 credits (LSS 408/508)

This workshop will provide a close-up look at the environment with an opportunity to study the relationships, concepts and variety that are present in Oregon's forests. Participants will gain a better understanding of the plants, animals, history and geology of Oregon's forest lands. The experience of walking among the 500-year-old giants will cultivate a depth of appreciation for our forest resources.

RISK AND LIABILITY — DECEMBER 6 AND 7

Fee: \$75 • 1 credit (LSS 408/508)

This workshop is designed for guides, leaders and recreation personnel who deal directly with risk and liability issues. The workshop will cover areas such as standards, negligence, adventure recreation, protection issues, insurance choices and purposes, litigation, risk reduction, permission and release forms, accident reduction insurance, and contracts and contracted services.

NORTH COAST — DECEMBER 18 TO 22

Fee: \$225 plus \$50 travel • 3 credits (LSS 408/508)

Investigate the tidepools and headlands of the Oregon Coast. This workshop covers history, concepts, recreational uses, plants, animals, and the relationships which create the delicate web of this coastal environment. This workshop creates a unique opportunity for learning as we spend four days and three nights at the field-lab site. Study will take place in several environments, including, dunes, beaches, estuaries, tide pools and the coastal bush. History, geology, geography, plants and animals will be investigated, all with concern for their interrelationship with the environment.

To register for any of these workshops or for more information, stop by the Continuation Center at 333 Oregon Hall or just call:
