*Fishbone's Walter A. Kibby II (above) douses the crowd and The Daddies lead singer Steve Perry heats it up during Monday's concert in the EMU Ballroom.*

**OUR WORKSTATIONS HELP YOU MASTER EVERYTHING FROM MATH TO SCIENCE TO MUSIC. BUT COME FEBRUARY, OUR DISCOUNT WILL BE HISTORY.**

NeXTstation™ computers are extremely fast and powerful workstations. But you'll have to be fast yourself to take advantage of our special holiday savings, because they end January 31st.

Even without savings, the price/performance of these workstations is unequalled anywhere in the industry. They offer features like an easy-to-use graphical interface, 8MB of RAM, enormous disk storage, a standard UNIX® operating system, true multi-tasking, and a 15MIPS CPU. They also have built-in Ethernet networking, a large

monitor with true display PostScript™ and a built-in DSP chip for CD-quality sound.

They're ideally suited to every kind of academic work – from computation-intensive math and science projects to report writing, complicated research, in depth analysis – and yes, even composing music.

That's partly because the best versions of many industry-leading software products are the ones written for NeXTstations. These products include WordPerfect®, Adobe Illustrator®, Lotus® Improv™, Soft PC®, and a great many more. *Mathematica*®, the acclaimed numeric-processing software, is even included free.

Given all this, about the only way we could improve the price/performance of a NeXTstation is to make the price lower. Which is just what these special savings do.

We recommend you visit your campus reseller today – before this offer becomes ancient history.
