## STREETWISE

QUESTION:

Should bicyclists be allowed to ride on campus sidewalks?

"Yes, because they should be able to bike anywhere. I'm a bicyclist and if I were biking today I'd be on the sidewalk."

—Charles Doggett  
sophomore, music

"No. I think it's dangerous. There are so many pedestrians on the sidewalk. The rule shouldn't be changed."

—Matt Langston  
graduate, physics

"No, because I almost get hit by a bike everyday. But I don't think they should be ticketed. They should just be given a warning."

—Julia Morgan  
sophomore, undeclared

"If bikers can be responsible and concerned about the welfare of others I think they should. But, of course, they're not, so maybe there needs to be a rule like that."

—Christine Snyder  
junior, fine arts

"I don't think so because there are so many students and so many bikes and some collisions or trouble will happen."

--Ching-Shih Chiang  
graduate, physics

"I think there are areas where bicyclists should be able to ride and areas where they shouldn't be able to ride. Where there are large sidewalks I think they should be able to."

--Suni Elgar  
junior, biology

## CAMPAIGN

Continued from Page 1

"Bobby has a broad understanding of how the ASUO functions and what it takes to make it run well," Fore said. "Hopefully what I can bring to it are the skills that I've acquired from SURC. ... Over the past two years, I've acquired a great deal of administrative skills and I feel that I'd be able to bring these over to the ASUO."

Fore said a renewed emphasis on political lobbying, as

well as voter registration, will be crucial from the outset, with upcoming national elections in November and a state special session likely for summer or early fall. The new president and vice president will take office in late May.

Lee and Fore plan to keep costs down in the ASUO by reducing staff stipends for students and adding more interns, who could receive credit through the ESCAPE program for their work, to take on some of the workload. Currently, there are only three ASUO in-

terns through this program.

Lee and Fore also plan to hire a permanent adviser for the Incidental Fee Committee, something they hope will ease the increasing tuition burden. This plan is necessary because members generally keep a position on the IFC for only a year or two, Lee said.

"We need to see more consistency in the IFC's work," Lee said. "Every year students come in and out, so it makes the whole committee a difficult structure because there's so much transition."
