Rick Cantwell launches a life-like dummy out the window of his room in Spiller Hall. He said he hangs dummies outside just to surprise people and to "trip them out."

Will your company grow as fast as you do?

Almost every company's recruiting ad promises you rapid growth. But before making any decisions, ask them how fast they're growing. After all, you're going to have trouble moving up if your company isn't.

Over the last five years, while economic conditions have stalled many organizations, Andersen Consulting grew on the average of 20% per year.

Compare that figure to any other firm you're considering. It could be the difference between getting ahead. And banging your head.
