LIBRARY

Continued from Page 1

"Immediately upon entering the building, staff will be available to direct patrons to new locations," Carver said.

The renovation of the existing building, which is expected to be completed in the spring of 1994, will include an aesthetic facelift, improved traffic patterns, modern heating and cooling systems, and telecommunications cabling to provide convenient access to electronic information, Carver said.

"The library staff will do everything possible to reduce these necessary disruptions, but we ask for our patrons' patience and understanding during this time," Carver said.

Books and services will be moved over break into the new addition of the Knight Library, which will be ready for use Jan. 4.
