Lottery money used for research

By Lisa Kneefel
Emerald Associate Editor

A visit to the University Wednesday afforded the Oregon Lottery Commission an opportunity to see lottery dollars at work.

John Moseley, University vice president for research, reported to the commission on how the school has utilized a lottery revenue investment to enhance scientific research for the benefit of all Oregonians.

The commission toured Deschutes and Streisinger Halls before presenting to local officials a ceremonial check for \$33.6 million. The funds will be distributed through the Oregon Economic Development Fund to programs that encourage economic development and create jobs.

Oregon Lottery funds provided \$12 million to build a \$45.6 million science complex at the University. The funds also provided a \$1.6 million investment in five University Centers for Excellence, which foster research and education in rapidly developing areas identified as key to high technology developments.

Moseley said the state-of-the-art facilities allow the University to recruit top-quality faculty and graduate students whose work draws federal and private money to continue research.

"This is where the future is and it's nice to have it right here in Eugene at the University of Oregon," Moseley said. The investment has yielded a substantial return, Moseley said. Since 1985, the University has attracted more than \$30 million in outside funding, leveraging the state resources investment by a factor of five to one.

Eugene D. Potts, chair of the commission, said the improved science facilities and program growth are an excellent example of application of lottery proceeds.

"The life of the lottery depends on getting that information out to the general public," Potts said, "because everywhere we go people say, 'Where does that money go?'"

Meeting in Deschutes and Streisinger halls allowed the commission to see what the lottery dollars can buy because the \$12 million investment in the science complex roughly equals the cost of the two buildings.

Record lottery earnings for the quarter ending Dec. 31, 1992 made possible the transfer of lottery funds to programs for economic development. Moseley said the research is crucial to keeping the University in the forefront of education. "The research university contributes to new knowledge," Moseley said. "You don't have graduate programs without research."

the workshops are free and are for children and adults. All activities will be at Springfield City Hall.

COMMUNITY UPDATE

Tax help available

Beginning Monday, volunteers will be available to help those with low and moderate incomes, including college students, with questions about preparing federal and state tax returns.

The program is sponsored by the American Association of Retired Persons, in cooperation with the Internal Revenue Service. It will be available through April 15.

For help, call one of the following locations for an appointment: Eugene Public Library (687-5450); Whiteaker Community Resource Center (687-5149); Latin American Center (687-2666); Lane Community College downtown center (available anytime); Springfield Public Library (available anytime).

Art workshops set

Eugene-Springfield area families can take art classes that focus on everything from computer art to banner making at the third annual "Super Saturday" workshops from Feb. 6 through March 6.

Sponsored by the Springfield Arts Commission,

Local musician Rich Glauber will teach an hour of rhythm and world beat music Feb. 6 from 1 to 2 p.m. in the library meeting room. Participants can try an instrument. Artist Karen Keifer-Boyd will demonstrate how to paint with colored sand and create sculptured paper forms Feb. 13 between 1 and 4 p.m. in the City Hall lobby.

Artist and computer instructor Bonnie Mitchell will teach a computer art workshop in the library meeting room Feb. 20 at 1 p.m. Individual sessions run for 10 minutes during that time. Participants can learn how to produce a piece of art on a five-color Macintosh computer. Pre-registration is required by Feb. 13 for this class.

Roger Fountain will conduct a juggling workshop Feb. 27 from 1-2 p.m. in the library meeting room. Artist Jani Hoberg will teach the final workshop, on how to print a fabric banner, March 6 from 1 to 3 p.m. in the City Hall lobby.

For more information, call 726-3677.

ET ALS
