

**If it can win Pikes Peak,
how can it lose on Route 66.**

Scoupe Turbo \$10,999* It's not your average Sunday drive. With twelve and a half miles of ugly terrain and wild curves, the Pikes Peak Hill Climb is probably America's toughest rally. And on July 4, 1992, a Hyundai Scoupe Turbo won big. Well, guess what? You can buy the same sporty Scoupe Turbo (in a wider selection of colors, of course) at a price that won't race your pulse.**

Sport-tuned suspension and a 1.5-liter turbocharged Alpha engine make even everyday driving loads of fun. You'll also enjoy an abundance of standard comfort and convenience features. And Scoupe Turbo is designed and built so well that it even comes with free service and maintenance for two years.[†] (We call it *ValueCare Ownership*™. You'll call it worry-free driving. Call 1-800-826-CARS and we'll tell you more.)

Of course, Pikes Peak isn't the only place Scoupe Turbo won big. It's listed as a 1993 Best Import Buy in the pages of *Motor Trend*.^{††} Which is one of the few places you'll see it standing still.

Cars that make sense. **HYUNDAI**

*MSRP of Turbo model excludes freight, taxes, title and options. Dealer price may vary. Price of model shown may differ. Vehicle shown with options. **Pikes Peak vehicle modified for racing safety conditions. (Showroom Stock 2WD Class.) † Includes all scheduled maintenance for 2 years or 24,000 miles. Tires covered by manufacturer's warranty. Excludes items and repairs due to accident, abuse or modification. See your Hyundai dealer for details on ValueCare Ownership and all other Hyundai warranties. †† Motor Trend, December 1992. Do buckle up. Don't drink and drive. © 1993 Hyundai.
