Interactive programs on CD-ROM cover every subject from politics to physiology. And they incorporate sound, animation, music and video clips. So ordinary topics become more exciting, involving and relevant.

Because a single CD-ROM disc stores more information than 500 floppy disks, you'll be able to instantly access encyclopedias, dictionaries and extensive databases — all with the click of a mouse.

CD-ROM technology brings vast new capabilities to the desktop. Which is why, soon, more and more computers will include a CD-ROM drive. Buy one, and you're making an investment that will last you well into the future.
