LOVE MEDICINE—New and Expanded Version

by Louise Erdrich

A new expanded edition is now available of *Love Medicine*, the first book in Louise Erdrich's highly successful Native American tetology including *The Beet Queen*, *Tracks* and, soon to be released, *The Bingo Palace*. Winner of both the National Book Critics Circle Award for Fiction and the Los Angeles Times award for best novel of 1984, the resequenced edition of *Love Medicine* more fully captures the author's vision and includes four previously unpublished chapters. **Paperback 12⁰⁰**

"A wondrous prose song...about the enduring verities of love and surviving, and these truths are revealed in a narrative that is an invigorating mixture of the cosmic and the tragic."
— *New York Times Book Review*

"*Love Medicine* is a remarkable first novel that stares more boldly at many of the truths of Native American life in this country than any fiction I've read."
— *Chicago Sun-Times*
