Pac-10 tourney crucial for Ducks

By Steve Mims
 Oregon Daily Emerald

The Oregon men's golf team begins the crucial part of its season this week when it travels to Tucson, Ariz., for the Pacific-10 Conference Championships at Tucson National Golf Course.

The Ducks are on the bubble for the Western Regional championships in two weeks and need a strong showing at the conference tournament to solidify themselves as one of the top 12 teams in the Far West that advance to the regional tournament.

The Ducks have been up and down this season. They started poorly but came on strong near the end — only to finish 12th at their last tournament.

Oregon finished tenth or worse in its first three tournaments. The Ducks began to turn it around when they finished third at their own tournament, the Duck Invitational in March.

From there, Oregon finished eighth at the Pacific Coast Invitational, followed by a fourth and fifth place finish at the Southwestern and Western Invitational tournaments, respectively. The Ducks finished 12th in their last two tournaments, the Thunderbird Invitational and U.S. Intercollegiate.

The format for the conference tournament is different than most tournaments the Ducks played during the season. At the Pac-10 meet, four rounds are played during three days — instead of the usual two-day, three-round tournaments the Ducks play.

Each team also will take six players to the tournament and count the top five scores each round, one more than most tournaments.

Junior Ted Snavelly has lead the Ducks, finishing in the top 11 at five of the team's seven tourna-

The Ducks have consistently finished in the middle of the pack at the conference tournament.

ments this spring. Snavelly is also the Ducks' top returnee from last year's Pac-10 tournament, where he finished 34th.

Senior Randy McCracken and juniors Paul Regali and Andy Scheidt will join freshmen Joel Stock and J.J. Astorquia to fill out the Ducks' lineup. McCracken is the only other Duck who has experience at the Pac-10 tourney, finishing 49th a year ago.

The Ducks have consistently finished in the middle of the pack at the conference tournament. They have finished between fourth and sixth place every year since 1987, including a sixth-place finish last year.

The Ducks have never won the tournament and aren't expected to this year. No. 2 Arizona State, third-ranked Stanford and No. 11 Arizona should battle for the team title, but the rest of the field is wide open.

The Ducks haven't had an individual win in the tournament since the conference expanded to 10 teams in 1979. Some of the favorites this year are expected to be defending champion Jason Gore of Arizona, 1993 NCAA champion Todd Dempsey of Arizona State and his teammate Larry Barber, as well as Stanford's Casey Martin and Notah Begay.

The tournament begins this morning with 18 holes, followed by 36 holes Tuesday before the final round begins Wednesday morning.

Pass it on.
 (please)

Help our successful recycling program on campus by putting the Oregon Daily Emerald back in its original rack when you've finished reading it. This will allow another person to read it and/or be easily picked up for recycling.

CHECK OUT THE ODE CLASSIFIEDS

One of these high-speed, high-performance machines can be yours for low monthly payments. The other one is just here for looks.

Lamborghini Diablo VT with leather interior, cool wheels and a really, really, really fast engine.

Power Macintosh G100/60 8/160 with an Apple Color Plus 14" Display, an Apple Extended Keyboard II and mouse.

Right now, when you qualify for the Apple Computer Loan, you could pay as little as \$33* a month for a Power Macintosh. It's one of the fastest, most powerful personal computers ever. Which means you'll have the ability to run high-performance programs like statistical analysis, simulations, video editing and much more. Without wasting time. If you'd like further information on Power Macintosh, visit your Apple Campus Reseller. You're sure to find a dream machine that's well within your budget.

Power Macintosh for \$33 a month.

 Monday-Friday, 9am - 5pm

*Monthly payment is an estimate based on an Apple Computer Loan of \$2,122 for the Power Macintosh G100/60 8/160 shown above. Price and loan amounts are based on Apple's estimate of higher education prices as of February 1994. Computer system prices, monthly payments and loan amounts may vary. See your Apple Campus Reseller for current prices. A 5.5% loan origination fee will be added to the requested loan amount. The interest rate is variable, based on the commercial paper rate plus 5.35%. For the month of February, 1994, the interest rate was 8.54%, with an APR of 10.14%. 8-year loan term with no prepayment penalty. The monthly payment shown assumes no deferral of principal or interest (deferral will change your monthly payments). The Apple Computer Loan is subject to credit approval. © 1994 Apple Computer, Inc.
