

of Oregon, let me thank you for taking the time to consider my candidacy for the fifteenth seat of the Student Senate. Let me begin with some confessions. In the interest of honesty, let me expose the skeletons in my closet. Much like our President, I too have experimented with marijuana, except I inhaled. Secondly, I have also been known to drink on the weekends, often reaching a state of profound inebriation. This results in a spinning room and feelings of great affection toward those around me. Finally, I wet the bed until I was five. Let me assure you that these past transgressions will in no way hamper my ability to competently serve as your student senator. If elected, I will work diligently to ensure fiscal responsibility and to fight on the behalf of my fellow mediocre C+ students everywhere, regardless of their race, creed, color, gender, sexual orientation, political persuasion, religion, blood alcohol content or major. In conclusion, let me assure you that a vote for Shawn J. Richards, is a vote for America. Thank you for your time, and God bless the United States of America!"

• Daniel J. Stern

YOU ARE SPENDING \$115.00 per term in incidental fees. Yes, three hundred and forty-five of YOUR dollars go to pay incidental fees this year. Do you know what you are buying? Groups that want to use some of your money must ask permission from the Student Senate. This is your line of defense against your money being wasted. You have a right to expect that your good money will be handled responsibly. You have a right to insist that incidental fees be used to fund deserving groups and beneficial projects and to insist that your money not be squandered on frivolous or unworthy schemes. I want to make sure that you and your money are treated with due respect. I have the skills and the willingness to consider carefully these requests for funding. I will see to it that your money goes where it is needed, and I will do my utmost to stop your money from going where it shouldn't. I guarantee it.

Elect me, Daniel J. Stern, to the Student Senate. Get your money's worth. Thank you.

Academic Senator (Science),

Senate Seat #16, one-year (2-year mid-term)

• John Martincic

Are you worried about how your money is spent? Every year the Student Senate allocates more than 5.2 million dollars of student money to the ASUO, EMU, and the Athletic Department! I am an average biology major who wants the same thing as everyone else at the university: the best education I can receive with the money I spend. In order to accomplish this goal I am running for the Student Senate. Five-million dollars is a large sum of money, and with it comes a large responsibility. If elected to the Student Senate I will attempt to make sure your money is spent in the way you want. To receive the best education for you money remember to vote for JOHN MARTINCIC!

• Doran Spencer

• Mike Tresidder

Here's all you need to know. I'm a Chemistry major (hence the run at the science senate seat). I believe in my ability to communicate ideas and work well with other people (students, faculty, other senators, etc.). I will perform the duties of my office to my utmost ability if I am elected. Thanks for reading.

• James E. Jay

ACCOUNTABILITY. A government that is accountable to its constituents, is one which truly serves those who elect it. I will guarantee the student body of the University of Oregon financial accountability with respect to the budgeting of ASUO fees. I will keep the interests of all students in the forefront of the debate on where to allocate funds. 58 Student fees will total more than 5.2 million dollars for our next fiscal budget period, funds are distributed to the Athletic Department, the EMU and close to eighty other programs. I am not a member of any club, student organization or special interest. I will be fair in my analysis, of which programs require increased funding, decreased funding, or the creation of new programs to better serve the upcoming needs of the always changing student body. 76 If I am elected to represent you, I promise to be accountable to all the your needs.

Vote for JAMES E. JAY

• Benno Lyon

Having been a student in this state since childhood, I'm shocked at the level of budget cuts in the last few years due to Ballot Measure 5. This concern has led me to run for Senate, feeling it is important the money we are allocated goes to programs that most benefit the student body of this campus. I choose to represent Science students because I'm an Environmental Studies Major, and want to ensure that the quality science programs at this university remain strong. I've often been in leadership positions, helping to form Students and Youth for Peace, starting a recycling program at my high school, organizing marches and rallies in protection of human rights and the environment, as well as being a TA for Global Ecology here at the U of O. I am familiar with the budgeting process through attending budget hearings and talking extensively with some of the current senators. I am very open to communicating with all students, and want to create an environment of open, positive dialogue, rather than the constant slander and negativity I have witnessed this year. With your vote, we can create this partnership together. VOTE PROGRESSIVE. VOTE LYON FOR SENATE SEAT 16

Academic Senator (Business),

Senate Seat #17, two-year term

• Mike Bieker

• Thomas McCarthy

Imagine if someone gave you \$5,000,000 to improve your educational experience. You have that opportunity if you elect student senators who will listen to your concerns. The Student Senate controls \$5,000,000 that it uses, among other things, to fund ASUO programs. The purpose of these programs is to contribute to the diversity of viewpoints at the U of O, and to provide educational opportunities within these programs. I was greatly disturbed by events in the Student Senate this past year. Instead of promoting alternative viewpoints, certain senators sought to eliminate groups, such as OSPIRG, whose ideas differed from their own narrow points of view. This undermined the purpose having ASUO programs by limiting the marketplace of ideas. I believe the actions of these irresponsible senators in no way represented the position of most university students. These events propelled me to take action. I believe that any interest group that proves itself to be fiscally responsible deserves the means to have its voice heard. If elected, I will be readily available to students, and I will pursue the goal of diversity by protecting the marketplace of ideas the makes the U of O a great university.

ASPAC

2 At-large members, two-year terms

• Keijo Hunter

Hello! My name is Keijo Hunter and I am running for a position on the Associated Students Presidential Advisory Council. (ASPAC) I am currently a junior journalism student and am enrolled in the Clark Honors College. I am involved in various community organizations which include Bethel Temple Choir and Campus Crusade for Christ. Most of us are familiar with the scenario where a candidate makes huge campaign promises and after becoming elected, suffers from short term amnesia. My agenda is simple: you, the student. My role as a member of the Council would be simply to represent you. I am willing to listen to your concerns and am eager to express them. If you are ready for an individual who will not only talk but walk; if you are ready for someone who is not only willing but able, then voter for Keijo Hunter. **Vote Keijo Hunter for ASPAC!**

• Jennifer T. MacDonald

My name is Jennifer T. MacDonald and I am running for ASUO Presidential Advisory Council (ASPAC). I feel that I am a qualified candidate for this position. What would I bring to the President's Advisory Council? I am someone who is committed to making the university, and its policies, culturally aware. As an Asian-American student, I feel that I can help the Presidential Advisory Council become more aware of the issues of minority students. I believe that you cannot focus on one group to solve the University's problems. It is necessary to listen to many opinions to find a com-

mon ground. I promise to be a strong voice for ALL students to the administration. I believe that you cannot sit around and complain about the system if you are unwilling to participate in changing the system. Elect me, and I will turn our complaints into positive action to reform the system to the needs and desires of all students.

• Greg Perry

The President's Advisory Council was designed to give students a direct voice to express their concerns to our school's head administrator. Being this direct voice of issues involving student's concerns requires many skills. The ability to listen without making a snap judgment is crucial. Also important is the need for somebody who will stand up and let the administration know what is really irking students. I believe that the only route to empowering all students is to increase feelings of connectedness on campus. It's easy to become disillusioned when you are living in a fragmented house, creating a university community that stands together is a worthy goal. If elected I will strive to make this goal more tangible/real.

• Marisa Tabizon

"The ASUO Presidential Advisory Council (ASPAC) has two student positions that need to be filled. While it is not the council that needs these positions filled, we, THE STUDENTS, need those positions to be occupied by the best of us. The ASPAC provides the opportunity for student concerns to not only be expressed, but they are also addressed and university policies formed as a result. The students filling these positions must, therefore, be able to best represent the student body. As a member of organizations ranging from the Honors College Connection and the Song and Dance Troupe, to recreational soccer teams and the Episcopal Campus Ministries, as well as others, I have daily contact with a wide variety of opinions about student life, issues, and concerns. University activities will easily combine with my policy-making experiences as a member of the Girl Scouts of the USA National Board of Directors and other outside organizations, making me the best candidate to effectively represent the students of the University of Oregon. I would like to be your student liaison for the ASPAC and will do everything possible to represent and serve the needs of all students at the University of Oregon."

• Samir Kumar

"Dr. Dave Frohnmayer needs some advice! I believe that because of my involvement's and knowledge, I am the most qualified candidate. My experience includes interning for and then being promoted to the University Affairs Coordinator position in the ASUO Executive. I was also an active member on the Athletic Department Committee, the Mediation Board, and the Incidental Fee Committee. I have lots of experience lobbying in Salem for Higher Education. With my experience, dedication, and a strong voice to serve the needs of the students at the University of Oregon, I believe that I am very qualified to be on the Advisory Council."

• Andrew J. Watts

The actions taken by University Administrators are of great concern to many students. How can you make them aware of your feelings regarding the policies they choose to implement? As students it is your right to make University Officials aware of your opinion. Yet from their offices in Johnson Hall they are seemingly unreachable to the average student, invisible behind their green and white awnings. However, there is a way for you to have your thoughts taken directly to President Frohnmayer. You can talk to a member of the Associated Students Presidential Advisory Council. They are your voice, meeting monthly to discuss student opinion. If elected to a at large positions on the ASPAC I will do my best to make your feelings heard. As one of two students, not holding any other ASUO office, my sole purpose on the council will be to convey your feelings. Not hindered by a political agenda, you can rely on me to be completely honest with President Frohnmayer when discussing the policies that effect you. I am willing to for you and do my best to make your voice heard. Vote for Andrew J. Watts for ASPAC.

• Seth M. Skinner

My name is Seth Skinner, and I am seeking the position of ASPAC member-at-large. The objective
