ly Friday, posing a threat from Eugene north to Portland.

It is expected to crest 4.9 feet above flood stage in Harrisburg, 5.2 feet in Corvallis and 6.5 in Albany.

The water level is expected to decrease slightly in Eugene after dams north of Cottage Grove are opened.

"Anybody living on the Willamette can anticipate the river rising, and they should be prepared to evacuate," said Damon Coates of the Clackamas County sheriff's department.

A Red Cross spokeswoman told evacuees to turn off their utilities and take enough prescription medicine and clothing for at least two days.

High waters and mudslides are closing hundreds of roads throughout Oregon. Several local roads closed include Prairie Road, Lancaster Drive, Territorial Road, Parson Creek Road and Poodle Creek Road.

Along Beltline Road, large pieces of asphalt have broken loose.

The Lane County sheriff's department Wednesday night was strongly advising people to

avoid driving in the flood areas.

Major highways closed throughout Oregon including Interstate 5 north of Albany; U.S. 20 in the Coast Range, near Albany and at the Santiam Pass; Oregon 36 near

Mapleton; and several others throughout the state.

Log rafts that broke apart on the Willamette upstream from Portland sent several hundred logs worth millions of dollars floating through downtown. Downtown bridges were closed to traffic as the logs floated past. A raft containing hundreds more logs was wrapped around a piling beneath the Marquam Bridge, which carries Interstate 5 across the river.

As well as people, many livestock have been displaced from the flooding. Throughout Lane County, people with extra barns or field space have offered to house displaced animals.

In Lincoln County, the new home of Keiko the whale from the "Free Willy" movies, "it's just one endless pool of water out there," said Jim Hawley, emergency services director.

"He's probably swimming on Highway 101 by now," Hawley joked about the whale.

The Pineapple Express warm weather system from Hawaii is bringing the heavy rain and warm weather to Oregon, which is causing the floods.

Eugene reported 5.31 inches of rain in the 24 hours ending at 4 p.m. The rain is expected to continue through Saturday, with highs near 60.

Internet Classes: WINTER 1996

The UO Library is offering both general and subject-specific workshops on a variety of Internet topics. They are available free of charge to UO faculty, staff and students. Unless otherwise noted, classes will be in the Knight Library's Electronic Classroom (Room 144) and will last approximately 90 minutes. Classes marked ITC will be held in the Knight Library's Informational Technology Center, located on the second floor of the Knight Library.

Seating is limited. Participation in each class will be on a first come, first served basis. No advance registration is required. (For more information, browse <http://lib-web.uoregon.edu/uc/libhome/instruct/internet.htm> or call 346-1935). Handouts with descriptions are also available at library reference desks.

Requests for accommodation related to disability need to be made to 346-1995 one week in advance of the workshop.
