**Horoscope** by Frances Drake

For Tuesday, May 21, 1996

**ARIES** (March 21 to April 19)  
You need to stop talking and start listening to what astute co-workers are telling you. Their plans are better than you think. Ultimately, you all achieve the success you want.

**TAURUS** (April 20 to May 20)  
Your energy level is finally up and you begin to tackle a long-neglected project. However, leave some time later in the day for social activities. In the long run, your efforts are well rewarded.

**GEMINI** (May 21 to June 20)  
Try to avoid self-doubt. If you believe in yourself, you can undertake that new opportunity for advancement. At night, spend some time with a lonely relative.

**CANCER** (June 21 to July 22)  
Utilize your communication skills that are at a peak. Someone who has been rather recalcitrant finally comes around to your way of thinking. Be sure not to gloat!

**LEO** (July 23 to Aug. 22)  
You can be the master of evasion when you want to duck a certain subject. However, this is the time for honest communication with your mate. Later in the day, don't mix friendships and finances.

**VIRGO** (Aug. 23 to Sept. 22)  
You're tempted to make a major purchase for your home. However, your financial business needs to be handled carefully. Leisure and romance light up the evening hours.

**LIBRA** (Sept. 23 to Oct. 22)  
Something niggles at you early in the day, but you can't put your finger on it. When it finally comes to the fore, you can deal with it successfully. The stars are aligned for romance.
