200 WORK STUDY POSITIONS

Horoscope by Frances Drake

For Tuesday, May 21, 1996

ARIES (March 21 to April 19)
You need to stop talking and start listening to what astute co-workers are telling you. Their plans are better than you think. Ultimately, you all achieve the success you want.

TAURUS (April 20 to May 20)
Your energy level is finally up and you begin to tackle a long-neglected project. However, leave some time later in the day for social activities. In the long run, your efforts are well rewarded.

GEMINI (May 21 to June 20)
Try to avoid self-doubt. If you believe in yourself, you can undertake that new opportunity for advancement. At night, spend some time with a lonely relative.

CANCER (June 21 to July 22)
Utilize your communication skills that are at a peak. Someone who has been rather recalcitrant finally comes around to your way of thinking. Be sure not to gloat!

LEO (July 23 to Aug. 22)
You can be the master of evasion when you want to duck a certain subject. However, this is the time for honest communication with your mate. Later in the day, don't mix friendships and finances.

VIRGO (Aug. 23 to Sept. 22)
You're tempted to make a major purchase for your home. However, your financial business needs to be handled carefully. Leisure and romance light up the evening hours.

LIBRA (Sept. 23 to Oct. 22)
Something niggles at you early in the day, but you can't put your finger on it. When it finally comes to the fore, you can deal with it successfully. The stars are aligned for romance.

SCORPIO (Oct. 23 to Nov. 21)
Be careful you don't cause any misunderstandings, particularly when dealing with co-workers. Be very clear and direct with your speech. During evening socializing, be sure to be frugal.

SAGITTARIUS (Nov. 22 to Dec. 21)
Your terrific mood is still with you, making you positively buoyant. Again, you can infect others with this. At night, socializing is a plus.

CAPRICORN (Dec. 22 to Jan. 19)
Go ahead and hide your head in the sand. That's still not going to do away with that dreaded task awaiting you. Roll up your sleeves and get going now and for all!

AQUARIUS (Jan. 20 to Feb. 18)
You happily resolve a concern that has been weighing on you for some time. Someone behind the scenes at work is pulling strings for you. Be sure, though, this is being done in an ethical manner.

PISCES (Feb. 19 to March 20)
It's uncharacteristic of you to be impulsive, so don't start. A home improvement project requires your special touch. At night, you receive an extra burst of energy.

YOU BORN TODAY exude excitement and you crave thrills and freedom for yourself. You are self-confident, romantic and downright sexy. You love to travel and are fond of any kind of adventures. Such daring pastimes as mountain climbing and sky diving suit you well. At the same time, you are academically and professionally minded and succeed well in a corporate environment, provided that you are the boss.

Birthdate of Janet Dailey, writer; Peggy Cass, actress; David Grah, actor.
