

Become a Peer Health Educator

The Peer Health Education Program offers opportunities for students to explore a variety of college health issues with other motivated peers.

- Earn 8 upper-division EDPM credits over a 2-term commitment.
- Organize and conduct campus health presentations and workshops.
- Coordinate campus-wide events.
- Provide one-on-one peer counseling sessions.
- Write articles for the WellNow health newsletter.
- Gain knowledge about nutrition, sexuality, fitness, substance abuse, and mental health.
- Develop skills in presenting information, communication, and outreach.

To apply, contact the Health Education Office at 346-4456 or pick up an application at the Student Health Center.

CHARLES H. LUNDQUIST COLLEGE OF BUSINESS PRESENTS

BROWN BAG RESEARCH SEMINAR SERIES

Studying Social Systems at Work

LARRY RHODES
ASSOCIATE PROFESSOR

DENNIS SANDOW
SENIOR RESEARCH ASSISTANT

HUMAN INVESTMENT GROUP
COLLEGE OF EDUCATION

Learn about research conducted on Oregon businesses which reveals that employees "self-produce" the knowledge they need to improve their performance. Find out what improved worker productivity has to do with biological research on autopoiesis, or self-producing systems.

FRIDAY, NOVEMBER 22
NOON 330 GILBERT
UNIVERSITY OF OREGON

Help our successful recycling program on campus by putting the Oregon Daily Emerald back in its original rack when you've finished reading it. This will allow another person to read it and/or be easily picked up for recycling.

The Athletic Department's plans for a new indoor practice facility and outdoor practice fields has some Eugene residents worried about future parking shortages.

Athletics: Construction to begin in 1997

Continued from Page 1
iprocity because the new parking is further from the areas we had agreed on," Keller said.

The city staff working on the application said city transportation officials had studied the proposal and did not feel concerned. The University will be required to submit parking information with their building permit application, however.

"We have submitted some information and more will be submitted with our building permit application," said Dave Pedersen, University representative. "We intend to submit all additional supporting evidence with the [building permit] application."

Another issue of concern addressed by citizens was concern over the environmental impact.

"I oppose the permit for ecological reasons," said resident Michael Gorman. "There are no less than 20 pairs of osprey in that

general area. [This construction] will affect every aspect of living creatures in the vicinity."

City staff made three recommendations to the Hearing Official regarding the University's application including adding a buffer of trees to the south end of the facility, looking at lighting intrusion and providing adequate trash facilities.

"There are no immediate plans for lighting at the outdoor soccer field," Pedersen said. "However, it is likely to be lit in the future. We will prepare a lighting plan which will address the lighting out into the park area."

The plan in the works is for an indoor practice facility, with an outdoor soccer field along its side, to be built next to Autzen Stadium and the Casanova Center. The facility's primary use will be for football, but all Oregon teams will have access to the site.

The "king size" building will

house a full-size football field with ample space on the sidelines that will include a straight-away track. Also included will be a large net for golf and tennis use.

The University is on a "relative fast track" and hopes to break ground on the site in January 1997, Pedersen said.

"Having a facility like this will better prepare us as we'll be able to train year-round," said Athletic Director Bill Moos. "We will have the first indoor athletic facility in the Pac-10 and the best overall football facility in the conference, maybe in the country."

Planning for the outdoor soccer field has been ongoing since the University added a Division I women's soccer program to its list of athletics. The University's initial field plans were separate from those of the indoor facility, but were later combined. The soccer field will be ready for play fall 1997, when the women's soccer team kicks off its second season.

WILLAMETTE UNIVERSITY
SCHOOL OF EDUCATION

Invest 10 months for
the challenge of a lifetime.

Willamette University offers an excellent 10 month program leading to a Master of Arts (MAT) degree and an Oregon Teaching License, with teacher license reciprocity with 27 states.
