candidate statements

needs and interests of students and student organizations, while keeping students financial burdens in mind and making decisions that are fiscally responsible. In addition, I believe it is very important for and the University to make a strong commitment to encouraging and supporting diversity and student empowerment on this campus.

It is important that students' voices have a integral part in the University decision making process. I would like to see an equal partnership between students and the administration develop in the coming year. In this position, I would dedicate myself to empowering student programs and preserving student control of incidental fees. Incidental fees should be used in a responsible manner which reflects the needs and interests of the student body.

My experiences with student organizations and student programming have made me realize the importance of such programming. Further, through my involvement in student groups, Student Vote 96, grassroots organizing, and the student/faculty sponsored Race, Work and Inequality conference, I have developed organizational skills and a commitment to student involvement.

Vote Student Rights, Vote Progressive!

ASUO Programs Finance Senator, Seat #2

Scott Austin

Hello. My name is Scott Austin, and I am an English and Political Science double major here at the University of Oregon. I am a fair, open-minded person, who will fight for the individuals and groups of this campus.

I believe that every individual and group on this campus deserves equal treatment and equal protection, and I will personally fight to guarantee that universal equality. I believe the best way for me to do that is to represent you in our student government, specifically in the Student Senate.

What's more, I believe that every official of this campus's Student Government is accountable to the laws of the United States, the State of Oregon, and the rules of this University and its ASUO Constitution, and that those leaders must follow those rules all the time!

So, if you want me to represent you as an individual or group in Student Government, and to protect your liberties, freedoms and rights, then vote "Scott Austin" for PFC Senate Seat #2, and take a stand for your freedom!

Corrie Nichols

When you think of what you pay to attend this university, do have an idea of how your money is spent? How much exactly is the incidental fee? You know it gets you into basketball games, but how many student groups

are you helping to support by paying this fee? Where is your information on how the money is spent and who decides the best way to spend this money?

If you have asked yourself these questions at some time in your stay as a student of the University of Oregon, then I am inspired. As a member of the Student Senate Programs Finance Committee I would like to empower the student voice with a responsible allocation of these funds. I would like to increase student awareness on how their money is being spent, who it's going to, who it's helping, and what the student groups receiving money are doing to better the experience of each person that walks upon this campus: faculty, students and administration alike. When we become aware of each intentions and learn how to communicate there is no stopping progressive education! Vote Student Rights, Vote Progressive!

Shantell Rice

When I walk around campus, I'm amazed at how many different people make up this place we call the University of Oregon. I see people from all walks of life and even with all our differences, the one thing we have in common is this university.

This university is important to us, because it's the educational tool that is going to get us places in life. We need the University of Oregon to teach us as much as it possibly can. This is a place where our views are expressed and our horizons broadened. With this, I believe that student groups and organizations help us to reach our potential. Student organizations give us a place where our voices can be heard and because of this, as your Finance Senator, I will do my best to ensure that your voice will always be heard.

Vote for Shantell Rice as your Finance Senator, Seat #2.

EMU Board Finance Senator, Seat #4

Wylie Chen

As students at the University of Oregon, we need to take an active role in developing our campus community. Our student fees are distributed to various programs at our University. These include the Athletic department, the EMU, and ASUO funded programs. It is up to the Programs Finance Committee, the EMU board and the Student Senate to decide where our student fees will go.

With two years experience on the ASUO Executive, along with experience on the EMU Board, I feel the most qualified for this position. As your Senator and a member of
