Knight Library named library of the week

The University's Knight Library is the feature library of the week at the Online Computer Library Center's web page.

"We're very pleased to honor them for their contributions to international libraryship," OCLC spokesman Phil Scheiber said.

Libraries that show innovation or are doing interesting programs are featured on the web page, Scheiber said.

OCLC is a non-profit computer service and research organization. Its services link more than

27,000 libraries in 65 countries. OCLC aims to promote access to the world's information, according to its Web page.

The West Coast service of OCLC recommended Knight Library for feature of the week. Scheiber said he is familiar with the staff and the accomplishments of Knight Library and the staff and are very happy to feature it. Knight Library has been a member of OCLC since 1981.

The feature on Knight Library will be up until the end of this week and can be found at: www.oclc.org/oclc/membership/univ_oregon.htm.

Speed limit changes on Willamette Street

The speed limit on Willamette Street will become a consistent 25 mph today.

The speed between 13th and 20th avenues will be increased to 25 mph from 20 mph, and the speed between 20th and 32nd avenues will be decreased from 30 mph to 25 mph.

The city decided to make the change after a Public Works study found that the speed limit between 24th and 29th avenues should be decreased because of the risk of accidents in that area.
