Horoscope by Frances Drake

For Wednesday, Nov. 11, 1998

ARIES (March 21 to April 19)
The feeling that you have more tasks to complete than time may leave you feeling a bit frazzled, but it's you who's putting on the pressure. Try to relax and work steadily, instead.

TAURUS (April 20 to May 20)
Taurus is not driven by the emotional upsets that haunt others, but now you're particularly content and pleased with each aspect of your life. Enjoy yourself!

GEMINI (May 21 to June 20)
Someone close to you may make a casual remark that hurts you deeply. Pouting will get you nowhere; you'd be wiser to pass it off as your own oversensitivity.

CANCER (June 21 to July 22)
Discussions that require tact and care are a cinch, as now is the time when your words will come easily and those around you will understand your meaning.

LEO (July 23 to Aug. 22)
Leo's generosity takes a hit as you realize that your plans are beyond your resources. Some careful budgeting will get you through this time.

VIRGO (Aug. 23 to Sept. 22)
An old friend may suddenly pop into your mind, perhaps after having a nostalgic dream. Spend time catching up with this friend, as he or she may have something to tell you.

LIBRA (Sept. 23 to Oct. 22)
You may be tempted to try a radical new approach to a problem but taking chances is unwise now. Better instead to listen to the wise counsel of an old friend.

SCORPIO (Oct. 23 to Nov. 21)
Though you are tempted to work alone on a prestigious project you will only frustrate yourself by taking on the responsibility. Let another help and share the glory.

SAGITTARIUS (Nov. 22 to Dec. 21)
Work just isn't capturing your attention and you feel dreamy and frivolous. Spend time working on less onerous projects, you'll be back to normal soon.

CAPRICORN (Dec. 22 to Jan. 19)
Important people from your past may suddenly reappear, perhaps a sign that their influence on your life is not truly over. Be ready for unexpected phone calls.

AQUARIUS (Jan. 20 to Feb. 18)
A co-worker may be nursing hidden resentments, which could thwart your ultimate goals. Ask associates for input on your plans and work style.

PISCES (Feb. 19 to March 20)
Pisces will be bowled over by unexpected romantic attention from a partner or someone new. Enjoy the flattery but don't let it turn your head from your goals.

YOU BORN TODAY No one who knows you would be surprised to hear you described as pragmatic, efficient and totally dedicated; what they'd no doubt want to point out is that you are also quite kind and loving if not sentimental and "mushy." You are more interested in action than in communication and get quite annoyed at those who would rather talk about moving ahead than actually charging forward. This assertive attitude will ensure your success in any undertaking and you will rise to the head of any group you choose to join.

Birthdate of: Demi Moore, actress; Jonathan Winters, comedian; Kurt Vonnegut Jr., author.
