Ethical journalism award endowed

Ancil Payne, former president and chief executive of King Broadcasting Co., has endowed a new award for professional and student journalists at the University.

The \$106,000 endowment for the School of Journalism and Communication will award journalists who demonstrate high ethical standards in their work.

The journalism school will oversee the selection of award recipients.

The Ancil Payne Awards for Meritorious Journalism will be

given to working and student journalists in print, broadcast and new media in the Northwest.

Payne said the motivation for the endowment was his concern about the problem of ethics in journalism today.

He said he felt ethics could be encouraged by illuminating ethical stands taken by individual journalists in difficult situations.
