Horoscope by Frances Drake

For Wednesday, April 21, 1999
ARIES
(March 21 to April 19)
Concentrate on getting everything done before deadlines creep up and surprise you. Enlist the help of others in the know if it's too much for you to take on at once.
TAURUS
(April 20 to May 20)
Tossing and turning in the night may have left you a bit irritable and cranky by day. If something is really bothering your innermost mind-set, take steps to resolve the situation.
GEMINI
(May 21 to June 20)
Tie up all of your loose ends before moving on to new projects or ideas. You may find people who share your enthusiasm, but ultimately this project will put your name in the spotlight.
CANCER
(June 21 to July 22)
Though the pressure may seem a bit extreme, you will pass with flying colors. Others will recognize your achievements, and you're bound to get the recognition you deserve.
LEO
(July 23 to Aug. 22)
Locating an old friend and making amends will make you warm all over. Accept the barrage of social invitations as they shower down on you, and be gracious and humble when you can.
VIRGO
(Aug. 23 to Sept. 22)
Making a strong first impression on someone important could have lasting and residual effects, either socially or professionally. Don't snub anyone — give everyone the respect they deserve.
LIBRA
(Sept. 23 to Oct. 22)
It may feel as though a veil or a fog has been lifted from your eyes; you suddenly see things more clearly than you had in the past. This new outlook

is bound to lead to some lasting and permanent change of hearts.
SCORPIO
(Oct. 23 to Nov. 21)
Save any important talks or presentations for later in the day, as the morning may not be your most up time. Make contacts and follow up with those you've been putting off.
SAGITTARIUS
(Nov. 22 to Dec. 21)
It may feel like you are the only one who knows what is going on. Take special care with romantic or intimate relationships, as the binds between you could require extra tweaking.
CAPRICORN
(Dec. 22 to Jan. 19)
Though you may not feel like diving into a deep discussion, there's nowhere for you to move but forward. A checkmate may be a blow to the heart, but you, Capricorn, always have your wits about you.
AQUARIUS
(Jan. 20 to Feb. 18)
Larger problems may evolve when you butt heads with peers in the workplace. Remember that you all have to share and play nicely in the office or no real work will get done at all.
PISCES
(Feb. 19 to March 20)
This may be the moment you should seize to take a risk that you've been thinking about for a long time. You're feeling great, and even the worst possible situation won't be that bad.
YOU BORN TODAY With great persistence and reliability, you forge ahead on projects until they reach completion. Prone to self-indulgence, you may be inclined to go a little overboard when it comes to the occult and luxuriant. Friends, family and other people who know you greatly admire you for your fortitude, loyalty and stability.
Birthdate of: Charlotte Bronte, novelist; Queen Elizabeth II, royal family; Alan Ladd, actor.
