Horoscope by Linda C. Black

TODAY'S BIRTHDAY (July 22). Make your home the perfect playground this year, and you'll benefit in more ways than you can imagine. In August, the ideas will be plentiful but expensive. Be careful not to overspend. In September, a true love's input keeps you on the right track. Also learn a useful skill then. In November, take action to achieve specific results in a personal relationship. Don't hold back. In December, make changes to your home that will turn it into the perfect place for fun and games. In February, the money you have stashed away could come in handy. In May, a visit from friends proves you've made a good entertainment investment.

To get the advantage, check the day's rating: 10 is the easiest day, 0 the most challenging.

ARIES (March 21-April 19) — Today is a 6 — This is one of those days when a lot of changes are going on. Don't worry; it's going from worse to better. Watch and wait until your situation improves just a little bit more. Don't act hastily or get stressed; things will get easier for you soon.

TAURUS (April 20-May 20) — Today is a 6 — Some of the coming changes will benefit you, but some may slow you down. That's fine, actually. You like to consider your moves carefully before you make them. Having a more leisurely pace may almost be to your advantage. Pay attention, though. When you spot a good bargain, you'll have to move quickly.

GEMINI (May 21-June 21) — Today is a 5 — This is a pretty good day for you, but there's still more to learn. To show you've mastered the lesson, tune in to other people and provide what's required before they ask. It's difficult, but not impossible. You can move your number up to a 6 if you start enjoying this game. You'll make plenty of points from them, too.

CANCER (June 22-July 22) — Today is a 6 — Watch for a brief moment of opportunity but also stay practical. If you look around, you'll find something that needs to be done. Your window of opportunity is about to slam shut, so you'd better pick up the pace. Move quickly when you get the chance. Romantically, you're doing just fine. Listen to one who loves you.

LEO (July 23-Aug. 22) — Today is a 5 — Conditions coming into effect could promise a real advantage. There are too many variables right now, so keep your guard up. Still, if necessary, to maintain your advantage. Work closely with an associate and delay just a little while longer.

VIRGO (Aug. 23-Sept. 22) — Today is a 5 — There are a lot of changes going on. You may

feel pressure increasing. For the next few weeks, you'll be focused on completing old projects. That could include repairing and replacing some of your ancient household items. Looks like one of them could finally give up the ghost, soon, so be prepared.

LIBRA (Sept. 23-Oct. 23) — Today is a 7 — Conditions are beginning to change in your favor. A startling development could change how you see things from now on. Study something you've always wanted to learn, to improve your job skills, even if you thought it was too hard for you. You're in a good position to have a breakthrough.

SCORPIO (Oct. 24-Nov. 21) — Today is a 7 — Conditions are changing, and your advantage is starting to fade. You'll have to follow other people's orders more. In a way, that can be nice. You get to hide behind somebody else, and that can be a good position. Finish whatever needs to be done quickly so you can relax later. Timing is everything, and the time to act is now.

SAGITTARIUS (Nov. 22-Dec. 21) — Today is a 7 — You're getting stronger, as conditions are shifting in your favor. If you've had trouble getting your meaning across, don't blame yourself. The energy's starting to flow in your favor, so you'll become more effective soon. It hasn't quite happened yet. Continue to finish old business; start new projects tomorrow.

CAPRICORN (Dec. 22-Jan. 19) — Today is a 6 — Conditions are shifting slightly to your advantage. The coming phase will be much easier for you if you have a good partner. Today, you'll glimpse what's coming. A person you admire may resist your suggestion. More study's required, making the job more difficult than you thought it would be. Romance should be going well, however.

AQUARIUS (Jan. 20-Feb. 18) — Today is a 6 — As conditions change, your life should get easier. You've had a few tough days this week. You were kind of outanked. You had to go along with somebody else's program, but you'll soon be in a better position to get your point of view across. You're getting stronger, but you're not there quite yet. Be patient.

PISCES (Feb. 19-March 20) — Today is a 7 — Your advantage is beginning to fade. You've been lucky with love and games for the past several weeks. Now, you'll have to work for what you get. This is good for you, especially if you've already got all your romance issues settled. If not, hurry up!
