Atkinson

continued from page 1

A: Because actually I do not need a right-hand man. That would serve absolutely no purpose to me.

Q: So if you're elected, do you have plans for appointing someone?

A: It depends on whether the workload demands it. I don't see it happening but it might be necessary.

Q: What do you consider the two most pressing issues at the University, and what specific plans to you have to address those issues?

A: Well, definitely the lack of left-handed facilities is the most pressing issue, and also I just want to make sure that as we strive for diversity on campus that we make sure to represent left-handed people ... I can't remember the last time I saw a professor come in and write down his office hours with his left hand.

Q: What are the strengths and weaknesses of this University?

A: I'm a one-issue candidate, and I think the weaknesses are self-

evident, and I think I've made myself clear on that. Strengths: There are a lot of dedicated left-handed people here, they've just been swept under the carpet. When I raised the issue among acquaintances of mine about forming a left-handed student union, their response was overwhelming. I think it's time to go forward with this kind of activism. If I'm not elected, I'll form [a left-handed student union.] If I am elected I don't think it will be necessary.

Q: Could you critique Wylie [Chen] and Mitra [Anoushiravani] as the current executive and tell us how you would do their job better?

A: I'm not sure about their handedness, but, whether they're right-handed or left-handed ... within the system they've done a fairly adequate job.

Q: And how would you do their job better?

A: I would fight for left-handed liberation, and they have not done that. They have completely ignored the left-handed population on campus.

Q: How would you represent the University at the state level?

A: I do not know [if Gov. John Kitzhaber is left-handed] but the right-handed people have had their way far too long in the legislature and in state government. I would try to change that for the year that I'm in office. It would represent a group that has been ignored for a long time.

Q: Could you critique the diversity issue on campus?

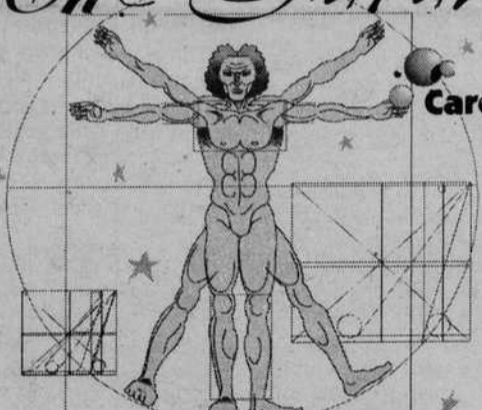

A: I think it's important to work towards greater diversity. I'd say that the University right now, it's not terribly diverse but it's fairly representative of how Oregon is at-large because Oregon as a state is not very diverse. But in working towards diversity, I think it would improve education quite a bit, and I think left-handed people are definitely included in that.

Q: How do you see your relation with the University administration being?

A: Depends on whether or not [University President Dave] Frohnmayer is left-handed or not.

This is the third in a series of stories profiling the ASUO Executive candidates. The Emerald will profile all of the candidates before the ASUO primary election.

The Future is Now!

Careers in Communication 2000
Saturday, February 19th
