**TODAY'S BIRTHDAY** (Feb. 21). Go over what you've got this year and put in the corrections. Tidy up loose ends in March. Just ask for the money in April. You'll learn quickly in May, so take the toughest classes then. The path to your dreams should be obvious in August, but continue to prepare. Convince a skeptic in September, and by December, you could achieve great things. Don't squander your money, and security's yours by next February. To get the advantage, check the day's rating: 10 is the easiest day, 0 the most challenging.

**ARIES** (March 21-April 19) — Today is a 7 — You may have to work a compromise. Don't worry; you can still be the leader. It's nice to be the kind of leader people follow because they want to, not because they have to. And, your willingness to compromise now will help you maintain that position.

**TAURUS** (April 20-May 20) — Today is a 7 — You should do pretty well now. Mercury is going retrograde, however. As you may know, that could mean confusion. And, for you, it's going to happen within groups and organizations. So, if you are a member of a group, be extra sure you understand what's going on.

**GEMINI** (May 21-June 21) — Today is a 7 — A lot of interesting changes are taking place. There's also more than the normal amount of confusion. A person who's issuing orders could be way off base. You should pay close attention to what's going on around you. Your advice could be pivotal.

**CANCER** (June 22-July 22) — Today is an 8 — You may have a treasure in your own backyard. Dig through your files, and you may find the perfect thing. It's just what you've been looking for, and it was right there the whole time. You might find a fabulous old recipe in your collection, too.

**LEO** (July 23-Aug. 22) — Today is a 5 — You and a partner could make your dreams come true. It's not going to be easy, but it does look possible. Your best bet is with an old dream, not a new one. Try again with something you've almost given up on. Recent changes could give it new life.
