

school is run. If elected, I believe that I would be a beneficial aspect to ASUO. One of my major concerns is to take into consideration the students thoughts and ideas. I am friendly, organized, responsible and attentive. Vote for Jessica Burmaster.

**Senate Seat #11,
1 year, midterm,
Undeclared**

Eric J. Bailey

Undeclared? Want a representative who will lobby for your needs as a student of our university, while also bringing years of leadership experience to the Student Senate? If so, then please vote for Eric J. Bailey when you cast your vote February 23rd.

In the past, I have been the youngest person to ever be on the planning commission for my city (Tualatin) and have served on the Tualatin Ad-Hoc Historical Committee. While serving as president of the Tualatin Young Democrats Club, I organized visits to my school by Congresswoman Elizabeth Furse and, her successor, Congressman David Wu. I am currently on the Area Standards Board and Vice-Chair of the Residence Hall Association on campus, striving to improve the community in the U of O residence halls.

A vote for me would be a vote in your interests as a dedicated student at our fine institution. I am a very hard working person who, as a senator, would always look at all sides of an argument before judging. I am very knowledgeable and would be looking out for the interests of you and other undeclared students at the University of Oregon. On February 23rd, vote for Eric J. Bailey

Ray Suit

Student Senator holds a great deal of responsibility, and each individual that's holds a position in the senate should have the personal dedication and commitment to carry out their duties in the senate. I believe our campus needs a focused and dedicated senate

as a crucial factor in having a successful year and they rely on the individuals they select to serve their office to there full potential. I believe if chosen as one of the student senators, I will bring an attitude of devotion and perseverance to conquer all objectives that we will face throughout the year. I believe the senate works as a team, and does not function properly if all units of the team are not striving for the same goals. A team atmosphere is the best way to work, when given a large responsibility. The responsibilities involved with distributing the incidental fees are enormous and it will take individuals that are committed and look for the greater of the whole, before deciding for themselves. I believe I hold these characteristics that will help the senate be successful.

Serene Joy Khader

I could say a lot of things about myself in explanation of why I should be elected a Student Senator, but Student Senate shouldn't be about me as much as my ability to represent you. Student Senators are responsible for representing students in the general university policy-making process and in the allocation and management of incidental fees. If elected to the Student Senate, I will combine listening and leadership. I am hard-working and dedicated as well as open-minded, personable, and responsive. Vote for Serene Joy Khader.

I will bring integrity and accountability to the Student Senate. It is important that a wide variety of students are represented and that all student issues are heard. My dedication to the issues is invaluable.

As the ASUO Multicultural Associate, I have worked closely to make sure that everyone's voice on campus is heard. I advocate for and help develop programs addressing the concerns of differently abled students, students of color, gay and lesbian students, and other under-represented groups.

**Senate Seat #15,
1 year, midterm,
Social Science**

Rebecca Cambreleng

The students need a voice. Student senators are there to give them that voice. A student senator needs to listen and get results. If you elect me I will be your voice. I will hear your concerns and translate them into actions. I will represent you with energy and passion. Here are some of the issues that I believe concern us right now.

Safety First. We need to feel secure on our own campus. Let us continue with the safety programs now in place and initiate new ones.

Our incidental fee system is threatened. Students should retain control; we need to keep democracy alive on this campus.

Diversity is lacking at this University. We need to recruit and retain minority faculty and students.

Students who are also parents are a reality today. We need to increase funding for them.

The student senate needs someone who is active on campus. I have been an intern in the student government since my freshman year. I am a sorority member, I am on the honor roll, and I am a political science major. My name is REBECCA CAMBRELENG, and I am running for Student Senate Academic seat # 15.

Jeffrey Read

Attention U of O students! Your future is at stake! Hi, my name is Jeff Read, and I am running for the one-year Political Science seat in the ASUO Senate. This year, the Senate plans to spend over \$5.5 million dollars to make our school a better place. I was amazed when I learned of the size of this figure, but this means that we as students have tremendous control over the future of our university. The senators of the past have done a outstanding job at making this institution a great place to learn, and I want to continue that tradition. I have experience in student government, being my high school's Publicist for two years and President of both the French and Spanish Clubs my senior year. I am also familiar with parliamentary procedure, as I was a member of the Oregon FBLA Parliamentary Procedures team my junior year, taking 7th place at nationals. Yes, I am a Freshman here, but what I lack in legislative experience, I can make up for in hard work. What will define my term in office is my willingness to work hard for you, the students of the University of Oregon. Thank you.

Sean MP VanGordon

Over the years, colleges have become more and more expensive and complex. As students struggle to pay tuition, they have very little time to follow the actions of their student leaders, and must place more trust in those leader's judgments. In my bid for a Senate Seat, I am asking for three things: 1) your trust, 2) your faith, and 3) your belief. Your trust, that I will fulfill the responsibility of representing you to the best of my ability regardless of personal politics. Your faith that the Student Senate can minimize the thousands of dollars of

debt that students graduate with each year. Your belief that differences in the Senate can be overcome with work and mutual cooperation. I want to work to find a way to maximize the benefits of Incidental Fees, while minimizing the costs to students. I will work with my colleagues to find common ground and solutions regardless of our personal relationship. I will finish my term and work impartially for the benefit of both the students in the majors I represent and all the students that the Senate represents. Please vote for Sean VanGordon for Senate Seat 15. My platform is at <http://www.geocities.com/CapitolHill/Lobby/1988/sean.html>

**Senate Seat #16,
2 year, Science**

Tex Arnold

Every year students from the University of Oregon pay incidental fees that are distributed among various funded programs throughout the university. The way in which these fees are distributed is determined by the Student Senate. In order to ensure the fairest distribution of fees to all organizations, you must first trust the people responsible for the allotment of student funds. I am an honest and fair-minded student that will work my hardest to make sure the distribution of fees in fair and unbiased. Vote for Tex Arnold.

**Senate Seat #18,
2 year, Grad/Law**

Peter O. Watts

I think that it is important that law and graduate students have representation on the student senate. I feel that I have done a good job of representing the unique needs of law and graduate students during the past year, and I would like to continue this work in the future.
