Horoscope by Linda C. Black

TODAY'S BIRTHDAY (Feb. 25) This year travel by water could be your reward for having planned carefully. Review what worked and what didn't in March. Don't let the money slip through your fingers in April. Playing by the rules makes learning easier in May. Heed a bossy co-worker in August. The travel by water goes best in November. Modify your play plans to fit in with work in December. An analytical woman can help you win next February.

To get the advantage, check the day's rating: 10 is the easiest day, 0 the most challenging.

ARIES (March 21-April 19) — Today is a 4 — You could feel a little frustrated. It's important for you to hold your temper and to plan your next move well in advance. The person with the advantage today is the one who can stay cool, even in the most intense situations. It's good practice.

TAURUS (April 20-May 20) — Today is a 7 — Today is a 6 — You should be able to figure out what's going on, but that's not true for everyone. You also need to make sure that what the other person heard is what you actually said. Something might get lost in the translation, even if you're speaking the same language!

GEMINI (May 21-June 21) — Today is a 5 — What's being promised and what's being delivered are two different things. You may not be getting the whole story. When you do the research, you may find that things are not the way you've been led to believe. So, better do the research!

CANCER (June 22-July 22) — Today is a 9 — You may finally get through to somebody you've been trying to reach. This is a special, personal sort of connection. You'll both benefit in a way that's kind of hard to explain. Well, luckily, you don't have to explain it to anybody else. It's none of their business.

LEO (July 23-Aug. 22) — Today is a 5 — Although other people's feelings are still taking up a lot of time, you should be in a better mood than yesterday. You're not the one who's upset, although all this whining may get you riled. Stay calm, and it will help others do the same.

VIRGO (Aug. 23-Sept. 22) — Today is a 7 —

This should be a good day for healing. If you're not already in that kind of a profession and if you'd like to be, this is a good day to start. You may have natural talent, too. Study your avocation on your own time, but don't quit your day job yet.

LIBRA (Sept. 23-Oct. 23) — Today is a 6 — Some sort of risk you're thinking about could prove to be quite expensive. How about you don't do it and just say you did? If everybody else is doing it, so what? Don't let them talk you into being as foolish as they are.

SCORPIO (Oct. 24-Nov. 21) — Today is a 6 — Finish old projects rather than start new ones. Something that's been bothering you at home needs your full attention for a while. Once you get these messes cleaned up, you'll feel much better about yourself. You may notice you get a lot more creative, too.

SAGITTARIUS (Nov. 22-Dec. 21) — Today is a 4 — You're still under pressure. It's not just your imagination. Don't ignore it; that would be foolish. Instead, go ahead and figure out what needs to be done, and just do it. It may be a struggle now, but it's not going to get any easier.

CAPRICORN (Dec. 22-Jan. 19) — Today is a 7 — This would be a good day to take a class or to attend a seminar. You can figure out a lot of things on your own, but this particular subject is best learned in a group setting. Old friends are better than new ones now, by the way. Finish up something you've already started.

AQUARIUS (Jan. 20-Feb. 18) — Today is a 4 — You need to be practical again today. Your sign's not renowned for being a tough businessperson, but you can learn. If you don't get what you want now, for example, stall until Monday. If you have nothing to lose by waiting, why hurry?

PISCES (Feb. 19-March 20) — Today is a 7 — Is there something you've always wondered about but were afraid to ask? Who's most likely to know the answer? A college professor? A clergy person? A legal adviser? Once this is out of the way, you'll rest more easily than you have in years. Make the call.
