

# Spring Break

It's about **roadtrips...**  
without crashes  
or injuries

Marissa Lara:  
"I'm heading down to California  
to see one of my friends at  
Humboldt State University."

It's about **GPA's...**  
not DUIs and MIPs

Kevin Reichelt:  
"I'm spending a couple on  
the misty Oregon coast  
with a few of my friends."

Jessica Sanders:  
"I'm graduating soon so I'm going  
to San Fransisco, CA to look for a job."

Cora Bennett:  
"While recuperating from knee surgery,  
I'm heading for 2 days on the Coast  
and 2 days in Portland."

It's about **keeping  
friendships  
alive...**

not letting our friends die

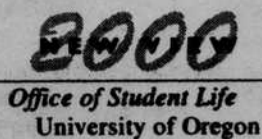

Amy Juve:  
"Well, it's February 29th and I still don't  
know what I'm doing--I am waiting  
for those last minute Spring Break specials."

It's about **preserving  
community...**  
not destroying it

"We, along with three other members of Sigma Phi Epsilon, will be flying to North Carolina to help out with the hurricane relief effort in the coastal town of Kinston. We will be building houses during the day and working on planning issues (developing a budget for restoring electricity to the area) during the night."

It's about **drinking alcohol  
responsibly  
or not drinking  
at all....**

The Staff at New View 2000  
wishes you a safe Spring Break!
