Horoscope by Linda C. Black

TODAY'S BIRTHDAY (April 25). Reach
out and make a friend far away. Don't let your
old fears block a new relationship in April. Use
experience as your guide, not your inhibitor, in
May. The material you study in July could help
you achieve a big goal. Save part of September
for romance. Recycle in December and save a
lot. Travel in January's plagued by little annoy-
ances. Gossip helps you win the prize in Feb-
ruary but keep what you hear to yourself in
March.

To get the advantage, check the day's rating: 10
is the easiest day, 0 the most challenging.

ARIES (March 21-April 19) — Today is a 6
— You could run into a hassle, which might be
a conflict with an older person, possibly about
money. You can eventually prevail, so stick to
your position. Have the facts at your fingertips,
too.

TAURUS (April 20-May 20) — Today is a 5
— You're sharp and confident. You may not
feel like you can speak freely, though. Well,
that's just your natural instincts protecting you
again. Being polite is important. The other per-
son has a slight advantage. So, stifle if you can.

GEMINI (May 21-June 21) — Today is a 5
— Are you worrying about money again? By
tomorrow, you should just about have this mat-
ter resolved. Meanwhile, do the homework.
Make sure you're getting the best deal. Al-
though this task may be frustrating, it's sure not
time wasted!

CANCER (June 22-July 22) — Today is a 5
— You could be in an argument with a mate or
partner. If so, you're probably upset because
you can't get your meaning across. Time to call
in an objective third party. An older person can
help you both find a way around your dilem-
ma.

LEO (July 23-Aug. 22) — Today is a 6 —
You're so busy today, you'll hardly have time
to eat lunch! Don't make any personal calls
from your workstation, either. Others are un-
der even more pressure than you are. So, no
jokes around the water cooler, even if it is
break-time!

VIRGO (Aug. 23-Sept. 22) — Today is a 9 —
So, maybe you can't afford something you'd
like. Don't worry! You're lucky in love, with
children, and even in education and publishing.
Don't wait; act now. Develop your talents, and
you may get that special item after all.

LIBRA (Sept. 23-Oct. 23) — Today is a 7 —
Are you involved in a household project? If
not, why not? Conditions are perfect for home
renovation. Spiff up your place, and your
prospects for romance get better, too. Especial-
ly if you're working on it together.

SCORPIO (Oct. 24-Nov. 21) — Today is a 7
— You're learning from an older person. This
could be a partner or an expert, possibly even
your mate. This condition is going to continue
through the end of the month, so get used to it.
Let the other person take the helm. You can be
the navigator.

SAGITTARIUS (Nov. 22-Dec. 21) — Today
is a 7 — A lot of work needs to be done, and a
lot of money can be made. You may have to re-
vise your routine to adapt. If you're used to
cranking out one widget an hour, think of a
way to crank out 100 instead. The market's
there; exploit it!

CAPRICORN (Dec. 22-Jan. 19) — Today is
an 8 — You have to deal with a hassle, but
don't let it get you down. Once you and this
other person make up, the rest of the day
should be easy. You don't have to agree with
another person in order to love them.

AQUARIUS (Jan. 20-Feb. 18) — Today is a 5
— You're going to be quite busy, hopefully not
cleaning up messes. You like to be good at
everything, but that's not always possible. You
may be in one of those difficult learning phases
now. Keep doing the homework, and it'll get
easier. Tomorrow.

PISCES (Feb. 19-March 20) — Today is a 7
— You and a group of people can accomplish
quite a bit together. If you're part of a class or
committee, help them all stay on track. If you're
short of funds, don't worry. Let that be
your motivation to try something creative.

Want to build great software?

We're looking for a few more University of
Oregon graduates like Chad Busche

If you want your ideas to count, enjoy writing
challenging code and want to use your creativity to design
leading-edge distributed apps using the newest tools
and techniques, have we got a job for you! We need more
team players like Chad, who can think for themselves
and are driven by the need to build great software that
makes life easier for our users. We'd love to hear from
you if you have graduated with a BSCS, or are working
towards a BSCS and will graduate this spring, and if you
know C++ and object-oriented analysis, design and
programming. Knowledge of database theory or Web
programming is a plus.
