## Horoscope by Linda C. Black

**TODAY'S BIRTHDAY** (May 1). This year you're pressed to take action — and you will. Think it over through most of May and make your move around the end of the month. By July you should be headed in the right direction. If not, correct your course. Romantic commitments made in September and November will last a lifetime, as will the business agreements you make all year. Don't let a gift you receive in December go to your head. Push to advance your career in February but keep most of April to yourself.

To get the advantage, check the day's rating: 10 is the easiest day, 0 the most challenging.

**ARIES** (March 21-April 19) — Today is a 4 — Don't waste time worrying about how you look. You look marvelous. Think about your money, instead. You could get a lot of it in the next few weeks. But, if you're not thrifty, it'll slip through your fingers. Don't let that happen!  
**TAURUS** (April 20-May 20) — Today is a 9 — You're getting pushed from behind, but you don't want to budge. You've made up your mind, and that's that. Don't ignore that nagging feeling, however. You may have overlooked something, and your conscience may be trying to tell you. Listen!

**GEMINI** (May 21-June 21) — Today is a 4 — A lot of people may want your time, but you're probably in a pensive mood. Are you worried about who you are and where you're headed? Want to make a few changes? Fit contemplation time into your schedule. Ask a wise person to help, too.

**CANCER** (June 22-July 22) — Today is an 8 — You have been known to be shy and retiring, but that may seem to be in your past. Instead, you may be in line for a leadership position. Others like what you're saying. Your enthusiasm is contagious, and your ideas are brilliant. Go ahead; step forward.

**LEO** (July 23-Aug. 22) — Today is a 5 — You're lookin' good, but you may feel stuck. You may think you'll never advance in your career. Getting where you want to go will take work. Start by getting more education. With another degree, you'll be amazed at how far you

can go.  
**VIRGO** (Aug. 23-Sept. 22) — Today is a 9 — If you've been thinking about taking a trip, bon voyage. If you don't know the language there, sign up for a class. You'll find learning is easy — and even fun. You can concentrate marvelously, so tackle a difficult subject.

**LIBRA** (Sept. 23-Oct. 23) — Today is a 5 — You should study ways to make and save money. Do it with a partner if you have one. Hire a professional to advise you. The more you can learn today and during the next few weeks, the more secure your future will be. And, don't tell anybody!

**SCORPIO** (Oct. 24-Nov. 21) — Today is an 8 — So much is going on in the area of partnerships, you may not have time to think about anything else. Hitch your wagon to a star, and you could do well. The person you want will be strong, powerful and trustworthy. And, he or she may be nearby.

**SAGITTARIUS** (Nov. 22-Dec. 21) — Today is a 6 — You might feel frisky, but you won't have much time for romance — or anything but work. You may be able to snuggle very early and very late, but that's about it. Don't worry about the money; it'll come eventually. Just get the job done now!

**CAPRICORN** (Dec. 22-Jan. 19) — Today is an 8 — Today you might want to stay home to play with your family. You've worked hard. Is there a way you could get some time off for good behavior now? If so, take it! If not, just get back there as soon as you can and relax!

**AQUARIUS** (Jan. 20-Feb. 18) — Today is a 5 — You are intelligent and careful. You want to make sure you're right before you make a final decision. That's a good idea, but try not to get stuck, OK? If you can do your thinking at home, the process should go more quickly.

**PISCES** (Feb. 19-March 20) — Today is a 9 — Don't go on a shopping spree. Focus on making a bonus or getting a better job, instead. You're worth it! If you don't know how to do the next job up, don't worry. You can learn quickly. Let people know that and how highly motivated you are. They'll be impressed.
