**Horoscope by Linda C. Black**

**TODAY'S BIRTHDAY (May 30).** You could make some decisions this year that will affect the rest of your life. You've been thinking about them for a while, so it won't be a surprise to you. Love shows the way in June. Common sense applies in July. Just say "no" to a rowdy request in August. Your determination succeeds in September. Ask, carefully, for whatever you want in October, and you might get it. You may see your partner differently in December. Fantasy and reality become entwined in February, but by May, reality's the victor, and that's fine.

To get the advantage, check the day's rating: 10 is the easiest day, 0 the most challenging.

**ARIES (March 21-April 19)** — Today is an 8 — You have to attend to certain rules and regulations. You can't give away as much as you'd like, even to a worthy cause. Tell them you'll get back to them next week. By then, you'll have a better idea of where you stand and where you want to go.

**TAURUS (April 20-May 20)** — Today is a 9 — Saturn for structure and Jupiter for abundance are both in your sign, and the moon's passing right in front of them. This helps you shine as the strong and generous person you naturally are. No point in trying to hide; everybody knows!

**GEMINI (May 21-June 21)** — Today is an 8 — You are starting to look at your life and see how far you've come with your dreams. You've still got time to achieve the things you care about. Scratch off the list the things you don't care about.

**CANCER (June 22-July 22)** — Today is an 8 — You're involved in many good causes, or you should be, anyway. If you're with a group who cares about things you care about, you'll flourish. If you don't have anybody like that in your life, today's a great day to find someone. Start looking in the phone book.

**LEO (July 23-Aug. 22)** — Today is an 8 — Your experience can prove quite valuable now. You may finally get acknowledged for what you've been through. If you're young and you don't have much experience yet, look around. Something fascinating is beckoning and it'll be worth the effort.

**VIRGO (Aug. 23-Sept. 22)** — Today is an 8 — You could have the urge to travel or go back to school. You're interested in everything! You might use what you learn to further your career, but you may not even care about that. You just want to know, for curiosity's sake! So go find out!

**LIBRA (Sept. 23-Oct. 23)** — Today is an 8 — You are very lucky, still. You will be for quite a while, so get used to it. Use your brains to learn how to manage your money, which will take some study. If you're so lucky, why aren't you rich? Or, richer?

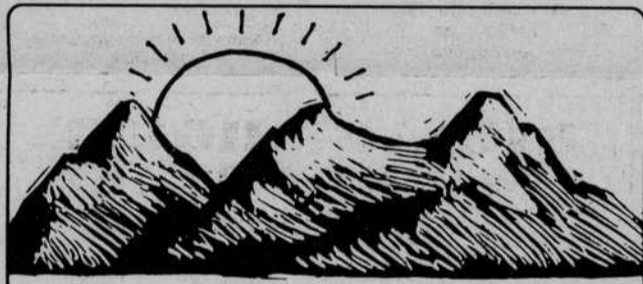

**SCORPIO (Oct. 24-Nov. 21)** — Today is an 8 — You could make decisions regarding partnership, commitments and stability. You're fascinated, most likely, by a person who lives by strict rules. That's not a bad idea, if there's also plenty of love. If you agree, you may have found (or rediscovered) your mate.

**SAGITTARIUS (Nov. 22-Dec. 21)** — Today is an 8 — Service to others is your motto this week and maybe for a long time. If you can put in a routine at your workplace, you may be able to finally relax. Focus on taking care of people, and the money will come.

**CAPRICORN (Dec. 22-Jan. 19)** — Today is an 8 — Games and children are important in your life now. You've got a lot of work and money's coming in, but kids are the most important thing. If you don't have any kids of your own around, go work with some as a volunteer. You'll all benefit.

**AQUARIUS (Jan. 20-Feb. 18)** — Today is an 8 — Put up something solid, like a cement and brick patio in your back yard. Things you build now should last a lifetime. That goes for giving your word, too. Don't do it, unless you really mean it. Even little kids won't forget.

**PISCES (Feb. 19-March 20)** — Today is an 8 — If you had your way, you'd stay home and study all day long. If you can't, just put in as many hours as possible. You know what to study, too. It's right there in front of your face. Keep doing it, over and over, and you will become good at it.
