Horoscope by Linda C. Black

TODAY'S BIRTHDAY (May 31). You should be almost certain by now what course you want to take. Your last few questions should be answered soon. Adopt rules you can live by in June. That'll free you to take action in July. Assume a leadership position around August. Lay down the law in September. Relax in a safe place in October. Be patient with your partner in December. Learn a new language in February. Take a leap of faith in March, and by May you should be on solid ground.

To get the advantage, check the day's rating: 10 is the easiest day, 0 the most challenging.

ARIES (March 21-April 19) — Today is an 8 — The overall outcome is beneficial. If you're struggling with something that doesn't work, just fix it and get back in the race. If you don't give up, your chances of winning are excellent.

TAURUS (April 20-May 20) — Today is a 9 — You should be getting strong. You are developing a very interesting character. By being really careful with your money, for example, you can wind up with the ability to be very generous. Do that with everything, and you'll wind up wise.

GEMINI (May 21-June 21) — Today is an 8 — Some of your fantasies are never going to work. Give them up; there's no more dream world. Choose the dreams you can make happen, and make them solid. As for the fears, get rid of them altogether. Just flush them down the drain. They're a habit you can break.

CANCER (June 22-July 22) — Today is a 9 — You need to get involved with a good group. If one is meeting this evening, get yourself over there. You could turn out to be one of the guiding lights. Don't be scared, it'll be easy and natural.

LEO (July 23-Aug. 22) — Today is an 8 — Some good doors could open up. Something you thought would never happen, could. Just think, by this time next year, it could seem almost ordinary! Somebody's got to do it, why not you?

VIRGO (Aug. 23-Sept. 22) — Today is a 10 — If you've been thinking about publishing a book, this is the day to send your manuscript

off to the agent. You're in a good position to advance from witty to wise. And, why not? You've been quietly studying the situation for years. It's about time you spoke up!

LIBRA (Sept. 23-Oct. 23) — Today is a 9 — No matter what income bracket you're in, you should be putting away money for your future. You need to save your money in a place where it will grow. And, where is that place? That's for you to find out! How hard could it be?

SCORPIO (Oct. 24-Nov. 21) — Today is a 9 — You want stability. You create it in your life. It's a lot more fun when you're doing it with a partner, however. Don't worry about whether there's a better opportunity somewhere else. Proximity counts for something, you know. Stop procrastinating!

SAGITTARIUS (Nov. 22-Dec. 21) — Today is an 8 — You should be able to see exactly what needs to be done. You've been working on this project all month. The next move should be obvious. Once you get this system up and running, you'll have more time to be out and running. It's definitely worth doing.

CAPRICORN (Dec. 22-Jan. 19) — Today is a 9 — You've spent a lot of time working, and that's good. You can't spend your whole life doing that, however. That's not a life; it's a life sentence! You know what would brighten you up? Kids! There are plenty of them out there. Be with them.

AQUARIUS (Jan. 20-Feb. 18) — Today is a 9 — You do need to be home tonight with your family. Even if something else is going on, pass on that. This is important. Pick up the phone and call your loved ones who can't be there. It'll mean the world to them. And, to you, too. You'll see.

PISCES (Feb. 19-March 20) — Today is a 9 — Study and practice, study and practice. It's getting easier, isn't it? Sure, it takes work. That's why the competition's thinning out. Those who are left are good, though, aren't they? So, study and practice! Study and practice!
