Horoscope by Linda C. Black

TODAY'S BIRTHDAY (Sept. 22). Mind your manners to advance this year. Once you've learned the routine by heart, you can relax. You're looking good in October, maybe too good. A dumpy older person could get jealous. Be nice and keep your job. Learn a new trick in December and renew an old love in February. Take care if you travel in June; a little later is better. A wise crack could cost you a lot in July. Another's criticism spurs you to action in August.

To get the advantage, check the day's rating: 10 is the easiest day, 0 the most challenging.

ARIES (March 21-April 19) — Today is a 6 — Your workload should get easier soon, but it may not be until early next week. In the meantime, take care of last-minute business. Delegate chores to a person you trust, and then check to make sure they're done on time.

TAURUS (April 20-May 20) — Today is a 7 — You were clicking along pretty well, but now you could run into new problems. These are different than any you've seen before. That means you're in unfamiliar territory. This is part of the great adventure your life has become, right? Enjoy!

GEMINI (May 21-June 21) — Today is a 6 — Financial planning has never been more important. Unfortunately, you'd rather play with your sweetheart or kids. Odds are good you'll be even less interested in balancing your check-book tomorrow.

CANCER (June 22-July 22) — Today is a 6 — A household project will take more of your time and mental energy the next few weeks. Right now, it may look overwhelming. Break the job into its component parts. Take them one at a time, and you'll be done before you know it.

LEO (July 23-Aug. 22) — Today is a 7 — You're getting luckier — and smarter, too. Use that extra brainpower and check a tedious assignment off your list. You've avoided it because it seemed too hard. It's still difficult, but it's no longer impossible.
