ride the light
Qwest.

Our Internet access service is engineered to support, but does not guarantee, speeds up to 56k using the V.90 protocol. Service is capable of receiving speeds up to 56k and sending speeds up to 31.2k. Actual speeds may vary depending on line condition, weather and other factors. Due to FCC regulations which restrict power output of service providers' modems, receiving speeds are limited to 56k. An interLATA transport fee, set by T-NETIX a Global Service Provider, and not by Qwest, is required for access to the Internet.
