

"The Challenge of Complexity"

The Integrated Biomedical Sciences (IBMS) Graduate Program is an interdisciplinary doctoral program within the School of Medicine at Oregon Health Sciences University, Portland, Oregon. The IBMS mission is to provide the next generation of scientists and educators with the expertise to approach biomedical research and teaching in an integrated manner; utilizing molecular, cellular and systems approaches to decipher the complexity of the human organism. The curriculum and faculty offer opportunities for comprehensive, interdisciplinary training that will provide a foundation for understanding healthy animals and people, as well as investigating the causes and possible new treatments of health problems. Students are prepared to meet the teaching and research challenges of modern academic departments in universities and medical schools, as well as the growing needs of the biotechnology industry in the 21st century. Stop by and see us at the University of Oregon Career Fair. For more information, visit our website at www.ohsu.edu/som-Physiology/ibmshome.html

What is EF?

EF is one of the world's leading organizations in the fields of educational travel and language learning with over 100 offices in 43 different countries. Our programs provide people around the world with the opportunity to live, study, or travel in foreign countries. To accommodate the growth, we are expanding into Oregon and will be opening a new office in downtown Portland.

Who are you?

You are someone who is looking to begin a fast track career in a non-traditional business environment. Having traveled overseas, you love to share your knowledge and enthusiasm for foreign cultures. You possess outstanding communication and promotional skills and have a keen organizational sense.

What do we have?

One of the many positions currently available is as an Educational Tour Consultant. In this role, you will recruit educators by advising them on the benefits of group travel while maintaining a high level of customer service. Management positions are also available. One year of sales experience preferred. We offer competitive salaries, generous vacation time and other excellent benefits of employment. We will be coming soon to select a number of exceptionally talented and qualified people to join our team as we open our office in Portland.

Please fax your resume and cover letter to:
