Horoscope by Linda C. Black

TODAY'S BIRTHDAY (Jan. 16). Advance in your career so you can play more. You already know how to be a workaholic. The pressure's on in January to do the impossible. Some of the rewards in February are status, not money. Your confidence improves in March, through your own good deeds. Rest in May so you can work overtime in June. Your partner's got the big picture in July. Your efforts could lead to a promotion around September. Don't take on new chores. A special visit to a sibling is renewing in November. The truth will set you free around December.

To get the advantage, check the day's rating: 10 is the easiest day, 0 the most challenging.

ARIES (March 21-April 19) — Today is a 5 — Gather information, and hold off on taking action. Your inner voice is confused. This may be frustrating; don't be the first one on the front lines. Be a strategist instead.

TAURUS (April 20-May 20) — Today is a 7 — First you have to make the money, then you get to spend it. That comes later in the week. You and your partner have big plans, but not enough resources yet. That can be remedied in time.

GEMINI (May 21-June 21) — Today is a 7 — You're feeling fine, but the workload's increasing. Be sure you're doing the job right. You're attracting attention, partially because you're so cute. If the attention becomes negative, tighten up your act.

CANCER (June 22-July 22) — Today is a 6 — You have a slow start, but that could be to your advantage. Problems could pop up. Your enthusiasm and success rate go up by the end of the day.

LEO (July 23-Aug. 22) — Today is a 6 — Do the reading first; you'll need the information.
