Waiting for a sign?

It's not likely to come from
 a major appliance.

God's a bit more subtle, generally.

Are you wondering about who you are and who you're becoming? Are you tired of being habitually preoccupied? Do you want to deepen your spirituality? Do you want to make the world a better place? These are signs God more typically uses to reach out to us.

If these questions are yours, perhaps you might check out the Newman Center, the Catholic Campus Ministry at the U of O. We're not perfect and we can't offer you easy answers. But we are a community of faith, seeking to become mature Christians with informed consciences, educated with respect to justice, and rooted in the love of Christ.
