# Map a strategy for success

*Students can also participate in a joint degree program (JD/MBA) with Willamette University's College of Law. This dual degree creates students who understand the intricacies of the law and are also skilled managers.*

**BE READY WITH AN MBA DEGREE FROM WILLAMETTE UNIVERSITY**

Mapping a strategy for success in today's world requires practical and visionary leadership. An education from Willamette University's Atkinson Graduate School of Management prepares students to be both leaders and innovators.

The Atkinson School's MBA for Business, Government and Not-For-Profit Management is the only MBA program in the country accredited for both business and public administration. This means greater opportunities for students to choose a route that will take them as far as they want to go.

In addition, the Atkinson School PaCE Project (where teams of students create and operate a real business), class consulting projects and internships provide students the opportunity to build the work experience valued by employers.

Areas of interest include accounting, finance, general management, human resources, information technology, international management, marketing, organizational analysis, public management and quantitative analysis. Merit based scholarships are available.

Apply to the Atkinson Graduate School of Management and find your way to your goals.
