Horoscope by Linda C. Black

TODAY'S BIRTHDAY (June 7). If you don't learn from history, you get to repeat it. This year, for you and your mate, that history lesson will be about money—the money that belongs to you both. Your goals are achieved in partnership, not alone. Look to the past to prepare for the future. Believe it or not, you'll move faster holding hands.

To get the advantage, check the day's rating: 10 is the easiest day, 0 the most challenging.

ARIES (March 21-April 19)—Today is an 6—Don't be late to work. If you are, apologize. Let the boss know that you care about your job, even if (at first) it feels like a lie. You do care, because you want the money to get something that you desire. Maybe one of the things you want is tuition to upgrade your skills so that you can do what you really love — for big bucks.

TAURUS (April 20-May 20)—Today is an 8—New opportunities appear. New horizons beckon. What's over that next hill, and the next one, and the next? Don't be shy. Ask somebody who's been there. The voyage will be easier and more fun when you have a trustworthy guide.

GEMINI (May 21-June 21)—Today is a 7—Continue to voice your concerns until you work out an agreement. If you don't mention everything that's bothering you, you'll eventually wish you had. The good news is that you can get what you need while only paying what you can afford.

CANCER (June 22-July 22)—Today is a 6—A partner will come to your rescue, and not a moment too soon. You may actually have the situation under control by now. The recent trials and tribulations were a challenge, but you made it through! Tonight, a little celebration is appropriate.

LEO (July 23-Aug. 22)—Today is a 7—You've had it pretty easy for the past few days. Don't worry, you won't get lazy. The pace is picking up, and you'll have plenty to keep you busy. Don't put it off until the last minute, or you'll have to stay late. You hate that!

VIRGO (Aug. 23-Sept. 22)—Today is a 6—

Somebody knows what you've been going through and admires the heck out of you. Relax and let this person take care of you. Your place may be a mess because you've been too busy to clean. Don't worry about that. This person understands.

LIBRA (Sept. 23-Oct 22)—Today is an 8—You're winding down, and with good reason. You forgot about things like food and sleep, and your body needs both to survive. Gravity is reminding you that you're still on the planet. Crawl into a safe place and get some rest.

SCORPIO (Oct. 23-Nov. 21)—Today is a 6—Communication difficulties may be slowing you down. You do best when there's not much to say. Practice new skills and become a master. You revere deeds more than words, anyway, and with good reason. Deeds are more reliable.

SAGITTARIUS (Nov. 22-Dec. 21)—Today is a 7—Don't get so preoccupied with winning the argument that you forget the bottom line. You have a job to do and bills to pay. A person who's obviously in need of correction may have to wait. Right now, he or she is nothing more to you than a distraction you can't afford.

CAPRICORN (Dec. 22-Jan. 19)—Today is a 7—You've had a lot on your mind for the past few days, but now your choices are becoming clear. You'll be ready to take action soon. When the time comes, you'll know just what to do. So you see, all that effort and struggle pays off. That's the story of your life.

AQUARIUS (Jan. 20-Feb. 18)—Today is a 7—Something a friend said has you thinking. Rearranging your priorities. You've got an active social life, but don't overdo it. Leave a few moments for yourself. Instead of packing more into today, find a way to do less.

PISCES (Feb. 19-March 20)—Today is a 7—As things start to settle down, you and your friends can assess the damage. Discuss it in private and devise a plan of action. There may be quite a mess to clean up, but that's OK. Changes always seem to include messes. It won't be so bad if you handle it together.
