I always saw myself working in an office. But it turned out I like thinking on my feet, doing ten things at once. I like managing a balance sheet impacting a \$6 billion company. And I definitely like the potential to earn more money than my friends climbing the corporate ladder.

It's a little surprising how much I enjoy it. But Enterprise is a surprising place. They train me. Support me. Reward me when I perform. Yet they let me do it my way, and I've never learned so much in my life.
