News brief

Student senate votes to fund step show

Zeta Phi Beta sorority requested \$3,000 for this weekend's step show at Monday night's ASUO Student Senate meeting in the EMU Board Room.

"We were hoping to get more money," Black Student Union Co-Director Haben Woldu said. "Due to budget constraints, we haven't been able to get money," she said.

Senator Kate Kranzush supported the request because the group has tried to raise revenue for the event.

"I think it's our job (to support them). ... They have fundraised," she said.

The senate granted the motion by a vote of 11 to two, with money coming out of surplus funds.

"I think it's important that not only the BSU, but we (also) support them," Senator Dominique Beaumonte said.

The Athletic Department Finance Committee is setting up more meetings to finalize contracts for the remainder of the school year.

The Programs Finance Committee reported the student incidental fee is expected to decrease more than 4 percent in the 2002-03 school year. The committee reported \$86,875 remaining in the budget for the rest of this school year.

Justin Zuiker was selected to be the new rules committee member.

"What troubles me is that there are no discreet limits to that jurisdiction," she said. "I don't think we want the University in our homes."

Berkman also expressed concerns that the language used in some of the proposed changes is even more vague than the language in the current code and that some of the attempts to "simplify" the process would interfere with students' rights.

Students facing sanctions are currently allowed to request a hearing, regardless of the sanctions facing them. One of the suggested changes to the code would allow formal hearings only in cases where a student was facing suspension or expulsion — it would also limit the function of an attorney or advocate for the student in a hearing.

"The current code is crafted to be even-handed," Berkman said. "These proposals leave a lot to the University's discretion."

Allison Jennings, a political science major now in her second year on the committee, said great care was being taken to avoid the kind of problems Berkman described but agreed the committee needed to proceed carefully.

"That's actually Hilary's position on our committee," she said. "That's why the code hasn't been changed yet — because it's so important to protect students' rights."
