

Partners For a Cleaner Environment

EWEB Windpower

Eugene Water & Electric Board invites you to join these local businesses who support a cleaner environment through their purchase of EWEB Windpower.

By subscribing to EWEB Windpower, these local businesses are supporting the development of an energy resource that is renewable, sustainable and has minimal impact on the environment. These businesses are meeting at least 10 percent of their electrical energy use with clean, renewable EWEB Windpower.

If you'd like to join these local businesses and the over 2,000 EWEB residential customers who have already signed up, call **338-WIND** today to find out more about EWEB Windpower.
