*It's about where I'm going,
 not where I'm from.
 It's about standing out as
 an individual,
 yet still succeeding
 as a team.
 And it's all mine.*

How far I go in my career is truly up to me and my abilities. Sure, every company says that, but at Enterprise, it's actually true. When I produce results, I get promoted, and I've seen incredible earning potential since day one.

Enterprise doesn't expect me to be this great businessperson overnight. They train me. Support me. Reward me when I perform. I'm fast-tracking in a \$6 billion company with 50,000 people from all walks of life. Yet it's still a tight-knit culture where energetic people take ownership of their careers. And I really enjoy that.
