fall 2002 because of the work, but classes in Gilbert 107, which was insulated with plywood, were not thought to be an issue.

"We did not anticipate the noise problem," he said.

University officials are hoping the move will be an easy transition for students, he said.

The noise is not expected to interfere with upcoming outdoor commencement ceremonies, because the construction crew doesn't work on evenings and weekends when graduation events are scheduled, said Wendy Mitchell, assistant dean of academic programs in the College of Business.

The construction is expected to wrap up in time for the 2003-04 school year.

Between now and then, classes — and construction — will continue.

theme of promoting social justice and equality, this year's conference is focused on reinvigorating activism after the Sept. 11 attacks.

The international showcase kicks off 6 p.m. today in the EMU International Student Lounge with an activist panel on social justice matters. Sociology Professor Chuck Hunt and members of cultural organizations are leading the discussion.

The local panel is being followed by a more global presentation. International author and filmmaker Guillermo Gomez-Pena will present a diorama about the role of globalization in society at 7 p.m. Wednesday in the EMU Gumwood Room.

The long-term planning behind the events and Coleman's visibility on campus often draws a larger crowd for this series than some other cultural activities.

"Dr. Coleman has the ability to get students from aspects of the student community that others don't reach," ASUO President Nilda Brooklyn said.

Brooklyn said from her experiences in past years, the program's reputation has a "pulling power" to entice more nationally recognized speakers, thus drawing in more students with the bigger-name speakers.

A thinning budget was one reason for this year's slightly smaller program.

"We've been doing intensive programming all year, and had to stretch the money more," Morozumi said.

Coleman is scheduled to speak in a more casual setting than in past years, at a reception in his honor at 7 p.m. Thursday in the Gumwood Room. Dessert and "finger food" will be served, and the Ed Coleman's Trio and violinist Mzuri Robertson are slated to perform.

All conference events are free. For more information, contact the Multicultural Center at 346-4207 or visit www.dailymerald.com.

dents," Brooklyn said. "We want to be a willing and active participant."

University tuition increased 3 percent for the 2001-02 school year. While the school hasn't decided on additional tuition increases for next year, many universities have already adopted them. Frohnmayer said the University of Washington increased tuition by 13 percent and Purdue University increased tuition by 10 percent for continuing students and 34 percent for entering students.
