*It's about where I'm going,
not where I'm from.*

*It's about standing out as
an individual,
yet still succeeding
as a team.*

And it's all mine.

How far I go in my career is truly up to me and my abilities. Sure, every company says that, but at Enterprise, it's actually true. When I produce results, I get promoted, and I've seen incredible earning potential since day one.

Enterprise doesn't expect me to be this great businessperson overnight. They train me. Support me. Reward me when I perform. I'm fast-tracking in a \$6 billion company with 50,000 people from all walks of life. Yet it's still a tight-knit culture where energetic people take ownership of their careers. And I really enjoy that.
