

Did you know that
employers
are looking
for YOU?

It's true! This may be
the only time where
employers will come
to seek you out...
on your own turf!

Employers from
corporations
and non-profit
organizations
come to campus
to interview
students, like you,
to fill career positions,
internships, and
part-time or seasonal
jobs. Most recruiters hire
students from all majors.

Get ahead of the
pack. Secure a job
before you graduate.
