Call to help us shed some light on the problem.

Have you or someone you care about been experiencing some or all of the following symptoms for at least a few months?

- Sadness
- Loss of interest in daily activities
- Hopelessness
- Difficulty concentrating

If so, participants between the ages of 18 to 64 may qualify for a research study of an investigational drug for the treatment of DEPRESSION.

All office visits and medical evaluations related to this study will be provided to qualified participants at no charge.

Senior education major Katy Lang donates blood for the Civil War Blood Drive on Friday afternoon outside of the EMU.

BLOOD

continued from page 1

said donating is important because many people know someone who has needed blood at one point.

"I think it's important to help out not only your friends, but people around the United States," he said.

Bondurant is the co-chairman of an OSU committee that organizes the school's three yearly blood drives. He said his school will be stepping things up a notch to win this year's contest.

"I think this year, we have a better

chance," he said.

OSU Assistant Director for Alumni Programs Janice Lentsch said that while OSU technically brought in more pints of blood last year, the University won because it met its campus drive goal and OSU did not. She said the competition at the campus level was based on the universities' goals instead of the number of pints collected because of OSU's strong history of blood drives put the University at a disadvantage.

"We felt that it was only fair to give the U of O a chance," Lentsch said.

OSU collected 926 pints on campus for a total of 2,720 pints statewide, while the University collected 151 pints on campus for a

statewide total of 2,152 pints. This year, Lentsch said the campus drive will be a pint-for-pint point system.

"Yes, U of O got the trophy, but OSU brought in more pints of blood," she said. "But really, the real winners were the patients."

Donors should be at least 17 years old and weigh 110 pounds or more. Giving blood takes about one hour, but donors can schedule an appointment to save some time. Information is available by calling the Lane Memorial Blood Bank at (541) 484-9111.
