It means Ben & Diana will make sure that freshmen, greeks, athletes, grad/law students, the involved and uninvolved alike all take advantage of all the UO offers. It means YOU need to VOTE BEN & DIANA.

Adrian T.
GILMORE

If elected ASUO President, I will make it my priority to ensure ALL STUDENT voices are heard and student's rights are protected. University level strategies will focus on appointing students to every student-faculty committee, increasing knowledge of the PFC procedures and policies, supporting programs, and advocating for lower University based fees. State level strategies will focus on increasing financial aid and tax reform because the tax structure of Oregon is the source of tuition increases. The University and State level strategies implemented together will ensure I fulfill my promise to have student voices heard and rights protected.

This school has a problem. The voices of the students go unheard. This is especially true ASUO. These so called "student leaders" worry about ways to preserve their position of power, when they should be thinking of ways to improve the campus and the thousands of students they represent. If elected, we will end this trend of uncaring apathetic leadership. We will work hard to promote and support the will of the student body. Your voice will be heard, so elect the peoples president. Elect Nick and Joe.

Nikia
GUTMAN

Nikia Gutman aligns himself with all oppressed people and the solidly middle class student body at the University of Oregon. If elected he will immediately resign. Nikia Gutman's policy is that he has no policy. Nikia Gutman urges you to vote. Nikia Gutman wishes to arise at exactly midnight. Nikia Gutman begs all to exclude Menachems Suv. Nikia Gutman promises that the Lechaim Society will continue to say Lechaim! Nikia Gutman believes in unity and progress! Nikia Gutman reuses paper plates then takes notes on them in class.

Ben
BROWN

I wander the paths of my campus and I am saddened. For too long toplessness has been restricted by law and fascist ideas of beauty to a select group. I say no more, don't we all deserve to feel the sun on our hairy backs, don't we all deserve to feel the warm winds of change blowing across our nipples. Only an executive who supports a shirt optional campus can give students the freedom they truly deserve. A vote for me is a vote for freedom, the freedom to uncover your pasty white flesh, the freedom to be truly happy.
