To adequately represent a group of students as unique, imaginative, and diverse as the Social Science students at the University of Oregon requires exceptional understanding of the student body and how best to serve them. It's time that President Frohnmeyer hears the opinions of typical students, NOT just the ideas of ASUO insiders. My many experiences at UO, from the cheerleading team, to the Honors College, to Greek Life, allow me to represent a wide range of students and bring a fresh perspective to ASPAC.

Taylour

On ASPAC I would do my best to improve communication between administration and students. My two years of legislative and advocacy work in ASUO will allow me to provide the administration with an accurate representation of the large scope of student opinions and diverse needs.
